Just Like An Ostrich—A medical authority says that a person who tries to cover up skin blemishes and pimples with toilet creams and powders is just as foolish as an ostrich that buries its head in the sand to avoid danger. Skin eruptions are nature's warning that constipation is throwing poisons into your blood stream and weakening your whole constitution. Remove the constipated condition and you will strengthen your system against disease and clear up your disfigured skin. The best way to do this is with a course of Herbine, the vegetable medicine that acts naturally and easily, which you can get at Taylor's Drug Store, Rosemary, N. C.

Note, Madam... the wide difference between KELVINATOR'S

4-way cold and ordinary electric refrigeration

KELVINATOR'S 4-WAY COLD gives you four different degrees of cold in four different compartments of the cabinet. These four different degrees are constantly and automatically maintained. In ordinary electric refrigeration it is possible to speed up ice-making—but—to do this requires lowering the temperature throughout the entire cabinet. This may result in food-spoilage, through freezing.

- Contrast this with 4-Way Cold which gives you
- 1—in One Compartment—a 40° to 50° Constant Cold—just the right temperature, science says, to keep most foods fresh.
 - 2—in a Second Compartment—a Below-Freezing Cold for cold storage of meats, game, fish, ice cream, etc.
 - 3—in a Third Compartment—a Third-Degree-of-Cold for freezing ice and desserts.
 - 4—in a Fourth Compartment—a Very Low Cold for extra-quick ice and desserts.

All of these degrees of cold are in constant service doing the work you want done without thought or effort on your part because—all are automatic.

Everyone can now own a KELVINATOR—on Easy Terms—The model Kelvinator you require may be purchased on easy terms through Kelvinator's attractive ReDisCo monthly budget plan.
