

BASCOES STILL LEAD WAY IN INDUSTRIAL LEAGUE

TRIPLE R AND PATTERSON SHOW IMPROVEMENT—DEEP SLEEPS SLIDE

Fourth of July is the time for fire works and ball games and last Friday was no exception. The Patterson Mill Silver Kings and the league leading Rosemary Bascoes started out with the first game of the scheduled double header. Crowder, ace of the Patterson squad started for them, while "Husky" Johnson went to the mound for the Bascoes.

Crowder lasted five innings, finally going out and Love replacing him. Johnson pitched steady ball for the full route and hung up his second victory in two starts. Finch, Alligood and Matthews led the Bascoes hitting, while Jones was the big flare for the Kings. The final score was 7 to 1, with Patterson getting their only score by the way of an error.

The second game was between the Deepsleeps and the Triple R's and the odds were all in favor of the down-towners. Carroll started for the Deepsleeps but was not effective and the town team was hitting him all along the way. The pitching of Jimmie Edmondson was the outstanding thing about the town team's play. He held the Deepsleeps to two lone singles while his team mates pounded out enough hits from Carroll's delivery to put the game on ice. The final score was 2 to 1. It was a fast, well played game. The two Shearin boys, Mitchell and Joe were the batting stars of the game. Edmondson, town team catcher stood out in all round play.

The regular Saturday double header was between Patterson Mill and Roanoke for the first game and Rose-

mary and the Triple R's in the night cap. Crowder was not satisfied with the way Rosemary treated him the Fourth, so he came back and started to setting the Deepsleeps on their heads with some fancy pitching. Frazier pitched for the Roanokers and the Patterson Mill boys handled him rough, hitting about everything he threw in to them. Only some fancy fielding by left fielder Hux held the score down. He made one of the best catches seen in these parts in a long while when he came in fast on a looping Texas Leaguer in the fourth and made a circus catch. The Roanokers were minus the services of center-fielder Pearce, who was out with a bad hand. The final score was 3 to 1 and shoved the Roanoke bunch in the cellar.

The last game was between the Rosemary Bascoes and the Triple R's. And what a game. The Bascoes were on the small end of a one to nothing score up until the sixth inning. The Triple R's scored in the first stanza when Edmondson tripled to right center and continued on in home when Matthews threw wild to Lowder at third. From then on it was nip and tuck, the Bascoes getting three on in the fifth with none out but the town team tightened up and it was still one and nothing. In the sixth Ryals singled, Outland hit a long fly to left that was fumbled by Smith and then Finch came up. He immediately hit one of the longest balls seen in these parts in many a day. It bounced some where out in deep center and Outland and Ryals scored. When the smoke had cleared away the Bascoes had the game 5 to 1. Birdsong pitched almost shut-out ball all the way to hang up his fourth victory of the season. Finch, Edmondson and Alligood led the Bascoes attack, while Jimmie Edmondson led the towners. B. Edmondson caught a fine game for the town team.

and game will be played here on July 16th.

Greetings to Prospective Students by President Chowan College

I take this opportunity to congratulate all students who were graduated from high school during the past commencement season.

This is the first milestone you have reached on your educational highway. I hope and trust that it may be a signboard as well as pointing you to higher training in the collegiate world. Do not allow it to be a detour sign; but be persistent and travel straight ahead on the educational highway.

We Chowanians are very anxious for you to be pointed this way and to visit Mrs. N. D. Cox last Friday.

have exactly the place for which both mother and daughter are looking.

This is a time of financial depression and of necessity, retrenchments: we believe we have the solution to the problem of sending daughters to college—namely the low cost for which we can train students: our prices are from \$150 to \$200 cheaper than other institutions of similar type. We give you exactly the same training as I said, at a much lower cost. We are able to do this for we are not located in a city, which is advantageous, and because we operate a small farm from which we serve our own fresh vegetables and fresh milk.

Why go elsewhere when you can get the same training at home and at a much lower cost?

Allow me to call your attention to two other features of our college—namely, business courses in typing, shorthand, bookkeeping, spelling and penmanship.

We meet the State requirements of all class "A" certificates. We offer courses in public school art, students that plan to teach have a splendid opportunity to do observation and practice teaching in the local public school through an agreement with both local and county educators.

Another feature of our college is the splendid training in the home economics field. We are expecting to make a greater feature of this field in the future than heretofore.

We are changing our B. S. Degree into a B. S. in Home Economics Degree. This will of necessity alter the courses and subjects leading to that degree.

We shall be glad to answer any inquiry or send catalog to anyone interested.

Wishing each of you a happy vacation, I am,

Sincerely,
W. B. Edwards,
President Chowan College.

Jay Bird Eats Snake Near Brinkleyville

If a snake eats a bird, that is not news. But when a jay bird is seen eating a snake that falls in the category of news. That happened recently near Brinkleyville, according to a letter from Thomas E. Street, 15 year old son of Mrs. L. E. Street of Enfield, Route 7, Young Street relates.

"One morning as I was walking through the front grove, I saw a jay bird on the ground pecking furiously. As I drew nearer, he flew up into a tree, something long trailing out behind him. The bird lit on a low limb and began again to peck. In a moment I saw the bird had a green snake about two feet hung over the limb. The snake was too far gone to raise its head to the limb but it wiggled its tail violently.

"When I last saw him, the bird had consumed most of the reptile. Such things may have occurred before, but I have never heard of a similar case.

Constipation throws into the system poisons which taint and weaken every organ of the body and makes them easy victims for any germs which attack them. Prevent constipation and you will avoid nine-tenths of all diseases, with their consequent pain and financial losses.
