OVER 15,000 DAILY DEMAND SARGON

Vast Growing Army of Sargon Users, Marching Single File, Would Encircle Globe in Only Few Years Time

(By Richard L. Simms)

Atlanta, Ga.—More like a tale from the Arabian Nights of old than a record of modern business achievements reads the story of the marvelous growth and development of Sargon, the New Scientific Compound which has become the sensation of the drug trade throughout the United States, Canada and other countries.

The old illustration of the pebble dropped into the pool best describes the phenomenal and unprecedented demand and its fame is rapidly spreading over the entire American continent like a great tidal wave.

Recently compiled figures reveal that approximately 15,000 men and women are marching into the drug stores daily for Sargon and Sargon Soft Mass Pills, the marvelous new treatment that is restoring health to countless thousands by new and remarkable methods undreamed of only a few years ago.

Already more than 5,000,000 suffering men and women have put it to the test and have told other millions what it has done for them.

Marching in regulation U. S. Army fashion—single file—this vast army of Sargon users would reach from New York to San Francisco and at the present rate of sale—would, in a few years time, encircle the entire globe.

The only explanation of Sargon's triumph in the Medical World is Sargon's true worth. Back of its triumph in the drug stores is its triumph in the homes and it is the grateful endorsements of its millions of users that has made it the most widely talked of medicine in the world today.

Sargon is extensively advertised, it is true, but no preparation, no matter how extensively advertised, could possibly meet with such phenomenal success unless it possessed absolute merit and extraordinary powers as a medicine.

There can be but one possible explanation for Sargon's amazing success and it can be told in one word—MERIT!

PLAYGRO'ND WORK ENDS

Increase Over Last Year in Total Attendance by Several Thousand

The city playgrounds end their second season on Friday. The playgrounds have been under the direction of Charles Thrift this season. He reports the attendance has been very good this summer, in spite of the hot weather and the closing of the mills, both of which have kept many people out of town. The total attendance for the season exceeds that of last year by several thousand.

The features of the playgrounds have been inter-playground baseball games and croquet matches. Pet day was held the second week and various pets were exhibited. The Roanoke Rapids playground won in baseball and horse-shoes.

Those at the High School building have been permitted to use the gymnasium, and this has been a source of much entertainment. The Rosemary playground has been devoted largely to girls, and among other things, they have devoted their time to hand-work.

The playgrounds have been very successful this summer. Their success has been due largely to the perfect cooperation shown by everyone, especially the Roanoke Mills Company, the Rosemary Manufacturing Co., the Roanoke Rapids Methodist Church and many others.

Nature Thought of Everything

Nature thought of everything when the human body was made. When the body is about to become ill, nature sends danger signals to warn us. Thus, if our children grind their teeth when they sleep, or lack appetite, or suffer from abdominal pains, or itch about the nose and fingers, we should know that they may have contracted worms. Then, if we are wise, we buy a bottle of White's Cream Vermifuge and safely and surely expel the worms. Thus we avoid the danger of very serious trouble. White's Cream Vermifuge costs only 35c a bottle, and can be bought from Taylor's Drug Store, Rosemary, N. C.
