OVER 15,000 DAILY DEMAND SARGON  
Vast Growing Army of Sargon Users, Marching Single File, Would Encircle Globe in Few Years Time  
(By Richard L. Simms)  
Atlanta, Ga.—More like a tale from the Arabian Nights of old than a record of modern business achievement reads the story of the marvelous growth and development of Sargon the New Scientific Compound which has become the sensation of the drug trade throughout the United States, Canada and other countries. The old illustration of the pebble dropped into the pool best describes the phenomenal and unprecedented demand and its fame is rapidly spreading over the entire continent. Recently compiled figures reveal that approximately 15,000 men and women are marching into drug stores daily for Sargon and Sargon Soft Mass Pills, the marvelous new treatment that is restoring health to countless thousands by new and remarkable methods undreamed of only a few years ago. Already more than 5,000,000 suffering men and women have put it to the test and have told other millions what it has done for them. Marching regulation U. S. Army fashion—single file—this vast army of Sargon users would reach from New York to San Francisco and at the present rate of sale—would, in a few years time, encircle the entire globe. The only explanation of Sargon's triumph in the Medical World is Sargon's true worth. Back of its triumph in the drug stores is its triumph in the homes and it is the grateful endorsements of its millions of users that has made it the most widely talked of medicine in the world today. Sargon is extensively advertised, it is true, but no preparation no matter how extensively advertised, could possibly meet with such phenomenal success unless it possessed absolute merit and extraordinary powers as a medicine. There can be but one possible explanation for Sargon's amazing success and it can be told in one word—MERIT!
