

OUTLAND K. O.'s LOVE IN FOURTH!

Wilmer "Scrappy" Outland, who weighs in around 135 pounds, of Rosemary, N. C., knocked out Henry Love, who weighs in around the same figure, last Saturday in the High School Gym. The bout was put on as an added attraction to the Durham-Jacket basketball game. The referee was Lester Edmondson of Roanoke Rapids. Jimmie Edmondson was timekeeper.

The first round was even with both battlers feeling each other out and fighting a cautious battle. The

second and third rounds were both taken by Love while the fourth was Outland's up until a few seconds before the bell rang. Both fighters came out of a clinch and Love suddenly fell to the floor gasping for breath, he was counted out.

Love insisted after the fight that he had some kind of heart attack that he is afflicted with. It was Outland's second win over Love in their two fights and his first knockout.

Durham Wallops Jax

The Roanoke Rapids Highs lost to Durham here last Saturday night 28-4 in a basketball game that was filled with many varied phases of the court game. Durham had a well drilled team and showed one of the best defenses seen here in a long time. The Jackets only shot two field goals, one in the first half and one in the second to score 4 points. Brown playing guard dropped one

Hurricanes Lose To New Bern!

in the first for two points and Newton who went in for Matthews in the last quarter shot another one. "Snooks" Matthews, forward for the locals played one of the most outstanding floor games of the contest and until he went out in the fourth quarter on fouls, he played a

whale of a game. Brown also played a nice defensive game. Durham scored eighteen points in the first half but the locals tightened down in the remaining two quarters and held them to the remaining ten points.

Shore Leads Hockey Stars

Eddie Shore, star forward and scorer of the Boston Bruins, who is leading his outfit into the playoffs for the Stanley cup. The Boston team is leading the American Hockey group and seems destined to capture the trophy.

A bunch of lassies from Craven County run up a total of 21 points here last Friday night to defeat the local Black and Gold Hurricane High School girls in a game that was thrilling from whistle to whistle, by the score of 21-15.

Captain M. Stallings of the visiting team was the fly in the Hurricane esoup, shooting 18 points for New Bern, the other two forwards accounted for three points between them. "Lanky" Stansbury was high scorer for the locals with ten points while Wilson was second with four. "Spec" Hines played a great defensive game to hold the New Bern score down and to prove that she is one of the best guards in the Conference.

The line-up:

New Bern	Pos.	Hurricanes
Stallings, Capt	F	Stainback, Capt.
B. Stallings	F	Wilson
Williams	F	Stansbury
Cherry	G	Tudor
Withington	G	Hines
Patte	G	Mills

SHELL'S FIRE

JIMMY SHELL

Baseball season will soon be here and I reckon the people around here are wondering if the Yellow Jackets will repeat what they did last year. They went through a tough schedule and clinched the upper berth by defeating Kinston High School 18 to 6. It seems that such a thing might be possible as all the players will be back on the squad except two outfielders, Ikey Johnson and Zell Burnette.

The line-up this year will probably be close to the one last year with Grant on third, James Womble at short stop, Matthews at second and Newton at first. If Newton plays first, Harrison will probably shift to the outfield. This is only my point of view as Harrison and Newton are both good first basemen. Newton is faster on first than Harrison and this is the reason I picked Newton for the berth. Harrison is a good hitter and will probably play right or center field.

Dickens, B. Brown, C. Brown and Mills and Fanny will also be seeking a bunk in the outfield. The pitching staff if no more boys try out for pitching this year will be Womble, Starks and Shell. The former two carried the Yellow Jackets through a successful schedule last year. Sullivan, Pridden and Bounds will probably be the catching material this year.

It seems that this bunch could walk away with anything the other conference teams could produce. But sometimes players get it in their neck that they're good and then they go blooey.

The basketball team this year is in better shape than ever before, but it seems the boys are just not hitting the basket with the pill. Last week the boys showed good form a spectator told me that from the games he had seen the Yellow Jackets outplayed the other teams on the floor, but they couldn't hit the basket when they got the chances so we came out on the bottom.

Captain Sullivan hasn't been out to practice for the last week, for the doctor is afraid this cold will develop into something more serious. Phillip Newton is playing in Sullivan's forward position until he gets well.

In case you don't know, Jimmy Womble was elected Captain to lead the Yellow Jackets against their foes this year. He produced a good hitting and fielding record last year and was one of the team's most valuable players.

Weldon School Man Speaks To Kiwanis

Supt. Oakes of the Weldon City Schools was the main speaker at the local Kiwanis Club last Thursday night. His subject, "The Home of Yesterday and the Home of Today," was handled in a masterful manner and created much after-discussion. Committee reports on incorporation were heard by the members with much interest.

THIS & THAT

It's a cinch that Roanoke Rapids will not land any basketball players on the Northeastern Conference all-star selection. Matthews and Sullivan are the two best players on the squad and that is not saying much. Captain Sullivan has been in and out the whole season while Matthews, with some very good floor work, has been outstanding, but on the shooting he has been a flop. He has simply not had his eye on the basket.

We regret to state that Elmer Starks has quit basketball to devote more time to studying. Elmer is a fairly good basketball player and the squad will miss him. He will possibly be out for baseball, although he did not pitch but a couple of games last year for the Jackets, he did some good work with the American Legion Juniors winners of the Eastern championship. His fielding and hitting was a feature of the team.

If Henry Hardison comes through, Coach Hoyle will have a good first baseman or a hard hitting outfielder. With a little coaching Hoyle will have a clean-up man on his team that will be hard to beat in High School circles.

And how about the Textile league, will we have one this year? No information is forthcoming from any source. How about a meeting; let's get this thing started. A meeting now will help things to get started early. We were caught napping last year.

Durham showed a nice passing and blocking team here Saturday night against the Jackets. They use the Meanwell system, the same that Tebbell used at N. C. State. It means plenty of short pass and doubling back and the Bull City lads worked it very nice.

This little Virginia Akers looks plenty good to me at a guard position. She is fast and covers her opponent like a tent. In watching one of the girls basketball team workouts a week ago, she looked plenty good—anyway she is a darn good substitute.

And talking about boxing, we would like to see "Soy Bean" Mills and Wilmer Outland fight. Outland would find Mills a little tougher than any opposition that he has encountered yet. It would be a dandy scrap and would probably be a knockout for Mills or Outland.

Red Devils Lose To Enfield Reserves

The Rosemary Red Devils lost to the Enfield Reserves on the latter's court last Friday night 16-16 in a hotly contested affair. The Red Devils, handicapped by some loose officiating and a court with low rafters, nevertheless held the reserves down during most of the game. The referee let the game get entirely away from him after the first quarter and it developed into a rough and tumble contest with no holds barred. Allbrook, Dickens and Everette stood out for the Devils, while Wood was outstanding for Enfield.

Here's the SENSATIONAL WINDUP to A MIGHTY SALE at B. MARKS!

The "Ground Hog" saw his shadow Monday, so that means residents of the Twin Cities and vicinity will have six more weeks of cold weather! Do not think that Winter Days are entirely gone. We are most certain to have some more cold weather, so that this final Clean-Up of B. MARKS of all winter goods in our big stock at drastic price reductions comes as a very timely event to this community. At the same time spring is "around the corner"—our store fairly "breathes" with the atmosphere of Spring right now.

and with the new styles; new fabrics and new colors appearing every day. NOW is the ideal time to select at least part of your Spring wardrobe. We believe you can do it best at B. MARKS. . . . come in and see!

We Must Not Carry Over any of these COATS!

In the first place the stock of the B. MARKS' Store is not made up of Carry-Overs. We pride ourselves in being first with the new styles, and that means we must buy new goods for each season. Then, too, even in our large commodious store, we do not have room to store winter goods because of the new arrivals in Spring goods. So, we have priced the balance of our stock of winter Coats to GO! In many instances, these winter coats are selling at less than one-half their former values. The styles are excellent, the materials and tailoring up to the high-class standard of this store (what more could be said?)—and the VALUES are really AMAZING! Truly, here is an event we cannot hope to duplicate every year. These Coats will be worn by many fashion wise women of the Twin Cities the remainder of this year and many winters to come. Come in and see this special showing today, for they will not remain in our stocks much longer at these prices.
