Dangerous Business
Our stomach and digestive systems are lined with membrane which is delicate, sensitive and easily injured. It is dangerous business, then, to use medicines containing harsh drugs, salts or minerals, when we are constipated. In addition to the possibility of injuring the linings of our digestive system, these medicines give only temporary relief and may prove habit forming. The safe way to relieve constipation is with **Herbine**, the cathartic that is made from herbs, and acts in the way nature intended. You can get **Herbine** at
