**GASOLINE**  
Developed for Fire Engines  
Yours at no extra price

The U. S. Government specifies for its emergency use  
“... a grade of motor fuel which is suitable for ambulances, fire-engines, emergency vehicles,—”  
(Excerpt from Federal pamphlet VV-M-571, July 21, 1931)

The Texas Company produced it for your every-day use

—a vastly superior motor fuel with every quality which makes for finer carburetion and instant power. Authorities said that the gasoline specified by the Government could not be produced for general consumption at any reasonable price until—

That gasoline is the new Texaco Fire-Chief. It surpasses the highest U. S. Government specifications for “emergency” fuel. It is an anti-knock gasoline with an Octane Rating that is outstanding—it’s alive with snap, dash, action—brimming over with eager power.

An advanced process, developed and perfected by The Texas Company, made possible the production of this “ideal” gasoline on a commercial scale and made it practical to offer it to you at no extra price.

Confirm this good news for yourself—today! One tankful of this sensational new gasoline will demonstrate power that is power. At all Texaco stations in this vicinity.
