"I found a beauty secret in my Electric Range"

"BELIEVE it or not, I have actually discovered a beauty secret in my automatic electric range. It is a beauty secret that you and you will want to know about.

"After all is said and done, beauty is more than skin deep, because beauty has its beginning in health. And good health comes from the right kind of exercise and nourishing diet.

"I have discovered that my automatic electric range actually gives me both. First, the automatic features of my electric range enable me to prepare a meal, put it in the oven, set the time controls, and leave home for the day. When I

return I find a perfectly cooked meal, ready to serve.

"This means golden hours of freedom, day after day—hours for swimming, tennis, golf, motoring, shopping, movies, bridge, etc. Golden hours that mean youth, beauty, and health.

"Too, food's taste so much better and valuable minerals in vegetables and the juices in meats are retained. I never worry about my meals or have to scour blackened pots and pans, and my range is as easy to clean as a china plate.

"Women cannot afford to look less attractive at the present time with the need of getting jobs and the competition in holding husbands and sweethearts.
