

The Family DOCTOR

by JOHN JOSEPH GAINES, M.D.

IN TOUCH WITH PEOPLE

Of course I am, and have always been a small-town man. I prefer it that way. I can contact my people at first hand. I can know them as they are. I get an understanding of human nature—facts as well as foibles—that is impossible for the city practitioner. And, here I learn to love my people; had you ever thought of that? By the same token, as the Irishman said, it is possible that they learn to love—possibly hate—me. I'm taking the risk for that. Here in "the sticks" I have the golden opportunity of trying to make them love me.

I have noticed that folks in the big cities haven't time to love each other, unless there is some money in it one way or the other. The city dweller does a thing if it brings him distinct pleasure—if not that, it must be spot cash!

One morning during early Spring, I saw a little girl of nine, skurrying along to school; she was a well-nourished child, apparently strong and active. She could not know what was passing in my mind, as I gave her the "once-over." But I observed this:

Her skirt did not reach to her knees by two inches. It was good, heavy fabric. The thermometer was at 18 above zero—a very cold morning. That girl's knees were bare! Her stockings were crinkled about her ankles; her calves and shins were exposed to the weather. Three of four abrasions were healing over on her legs where she had evidently "peeled" them on the concrete or in a rough-and-tumble outdoor game. I caught these points in the half-minute that she was under my observation. Then, I reflected what I'd say to that girl's mother, if I had the opportunity. You can guess what it would have been.

Objecting to her husband's airplane flights, Mrs. Emory Westlake of Chicago told the judge that a married man's place is on earth, nit in the air.

FELT SICK AFTER EATING

"None of my food agreed with me—I would frequently taste what I ate, long after my meals, and I did not see a well day for weeks," says Mr. Peter Seeger, 329 S. Elmwood St., Kansas City, Mo. "I began taking a pinch of Black-Draught after each meal, and kept this up for a week. Gradually the pain left me and I began to feel better. I ceased to be troubled with gas, and could eat what I liked."

And Now It Is True About a Car!

Remember the old saying, "Make a better mousetrap... and the world will..." and so on? Well, after all these years, there does seem to be something to it.

Pontiac sales are ahead of last year—and still growing

You will admit that, in a year like this, that means the car must have something. Something that people want.

Now, Pontiac does offer a lot for the money. And its price is low.

Pontiac gives a big, beautiful package of Balanced Value.

What does that mean? Simply that Pontiac gives you Economy—but not at the expense of other qualities. It gives also Durability, Comfort, Safety, Performance and Appearance. It gives all-round Balanced Value for the owner.

It means that the car wears evenly through tens of thousands of miles of use. And at the end of two or three years it gives extra dividends in the way of higher trade-in value. Fisher bodies have Fisher No Draft Ventilation. Pontiac is a typical General Motors Value—a good car to buy.

Read the Free Booklet

Come in for a free copy of the booklet—"What do you mean—Balanced Value." It explains what Pontiac is, in everyday terms with which everybody is familiar. It is worth reading, because it will make you a better car buyer—a more critical judge of value.
