

The Family DOCTOR

by JOHN JOSEPH GAINES, M.D.

I ENDORSE IT

Here's a letter from a brother physician,—with a few of the strongest words deleted. It may be of interest:

Dear Dr. Gaines:

"I wish you would devote more articles to the exposure of quackery. The every-day people of our country little realize the thievery that is going on under their very noses. The radio is reeking with the vile preachment of the medical racketeer. Millions of dollars—yes, hundreds of millions are wheeled out of American pockets that are least able to afford it. The game goes on without interference on part of authorities, therefore it would seem, within the law.

"The medical racketeer invents some trivial, imaginary disease or condition, to which any ordinary working man or woman might be subject—and for which the racketeer, of course, has the sole remedy. This (faked) condition is dinned into the ears of millions of listeners, until they grow suspicious of themselves—they are quick to detect signs of the "affliction." They have been told that it might lead to horrible death—but, easily enough "cured" if they secured a bottle of the nostrum and use it the rest of their lives.

"Multiplied millions of people rush to buy the racketeer's gully-wash. The profits are enormous—for, the operator of the hoax does not work for ordinary wages. Huge fortunes are piled up for the racketeer and his folks.

"Rube Smithers needs somebody to set him right; he needs a protector—an advisor who tells him the truth. Fat radio contracts are never turned down—they pay too well. It is poor Rube that Pays. Now, doctor, get busy."

RFC Lauds Manner In Which Relief Work Is Handled

An investigator for the Reconstruction Finance Corporation recently made a report lauding the manner in which relief work is handled in North Carolina, and particularly the way the funds are handled, Mrs. W. T. Bost, commissioner of public welfare, reports.

The funds are placed in the county treasury and are paid out on order of the welfare superintendent of relief director when countersigned by the county auditor. The welfare workers handle no money, thus preventing possibility of mishandling funds and allowing the workers to give more time to relief work.

Bill Allsbrook has returned to Chapel Hill for a week.

Tom Mooney Today

Tom Mooney, after serving years in San Quentin prison, saw his first "outside" sunshine a few days ago, as shown here, when taken to San Francisco to be tried on an \$1 murder indictment.

Miss Claudia Mae Winn, of Mayville, N. C., is visiting her sister, Mrs. Charlie Harlowe.

500 Commodities To Be Purchased For Institutions

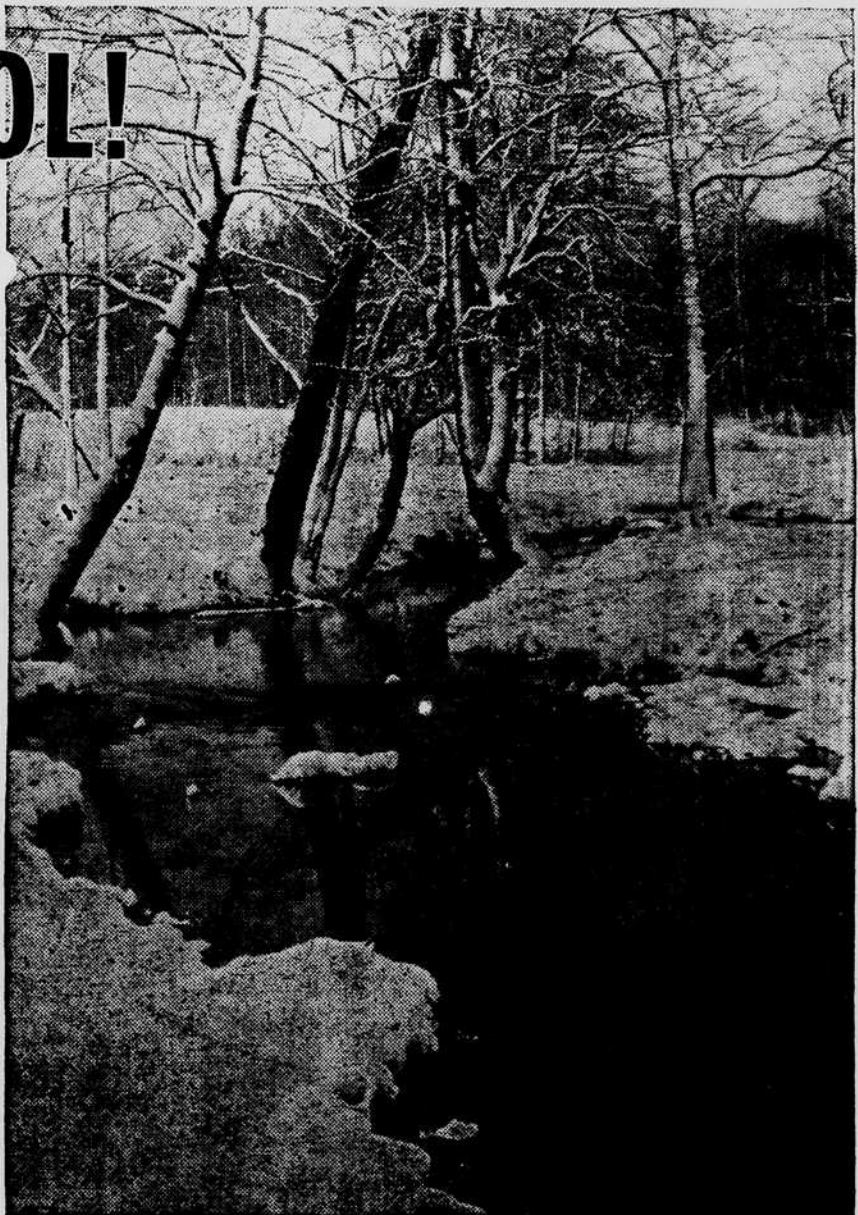

More than 500 commodities are included in the list of items to be bought by the Division of Purchase and Contract on bids to be opened June 15th, and to be used by the State's 28 charitable, correctional and educational institutions during the quarter, July 1 to September 30. The provisions will not be as extensive as during the other three quarters of the year, since the period represents the vacation time of the 14 educational institutions.

EYE SPECIALIST HERE

Dr. W. L. Davis, eye specialist, will make his regular trip to Roanoke Rapids, June 16th, where he may be seen at Cullom's, and at Hodges Jewelry Store on Saturday, June 17th.

electric cooking is so

COOL!

FAST

MODERN

EASY

CLEAN

COOKING by current is cool! When you have an automatic Electric Range you can cook food on the hottest days without parboiling yourself as well.

Thanks to their excellent oven insulation, electric ranges are so cool that you can place your hand on the side of the heated oven without fear of burning.

That's coolness!
An electric range is insulated to keep the heat IN THE OVEN. Not only does this feature contribute to comfort in the kitchen, but it also lowers operating costs and provides additional economy.

Too, the platform cooking units are designed to concentrate the heat directly on the bottom of the cooking utensils where

it belongs — thereby reducing the heat that normally might help raise the kitchen temperature.

Coolness is but one of the many features of cooking electrically, of course. We want you to know all the facts. Come in NOW or see your dealer NOW. And remember that electric ranges are reasonably priced; down payments are small; terms very easy; and operating costs are low!

You owe it to yourself to enjoy the coolness — and many other advantages — of cooking by current this Summer. Come in NOW!
