

TABS BEAT KILO SWATS 12-2

Tom Taylor Hurls Win Giving Vepco Boys Only 5 Hits

Throws Herald Team Within One Game Of City League Leaders

The fast stepping Herald Tabs advanced within one game of the Bascoes as City League leaders Saturday, by jumping on the Vepco Kilo-Swats for a decisive 12-2 victory in the opener of a double header.

Tom Taylor, lanky righthander was in fine form letting the losers touch him for only five safe blows, after having a rough start in the opening stanza when the Kilo-Swats scored their two runs. The inning opened with Kimball striking out, F. Dickens singled, Vaughan grounded out, Starke walked, Morris and Warren each hit safely to score the Kilo-Swats only two markers, failing to show another threat throughout the game.

The Tabs also opened their scoring early. Bill Speight first up in the initial frame collected a bingle, Garris flied out, W. Dickens touched first by an error on Warren's part, then Outland came through with a three bagger and Tom Taylor following him with a single that brought home two runs. Speight attempted to steal being thrown out, and Sullivan up after Taylor grounded to Warren for the third out, retiring the side.

Five more runs for the Tabs came in the third as Speight, W. Dickens, Sullivan and T. Taylor collected safe blows combined with two errors, accounted for the markers.

Another big inning was in the sixth frame, the Tabs adding five runs to their early lead. Garris, Outland and Sullivan figured in the scoring, each collecting a single.

Starke was blasted for thirteen hits and whiffed only three.

It is interesting to note that Lieutenant Colonel Simon B. Buckner, Jr., recently assigned to duty as commandant of cadets of the United States Military Academy at West Point is the son of the famous Confederate general of that name.

Tennis Tournament May Be Staged For Local Competition

Plans are under way by Belmont Murray to stage a city tennis tournament soon. The tournament will be open to all entries, and will be played off in single and double matches.

A trophy will be awarded to the winners of the single and double finalists. A small entry fee

will be charged in order to take care of the expenses of the trophies and other minor things.

All interested will please turn their names into young Murray at once as the tournament is scheduled to get under way within

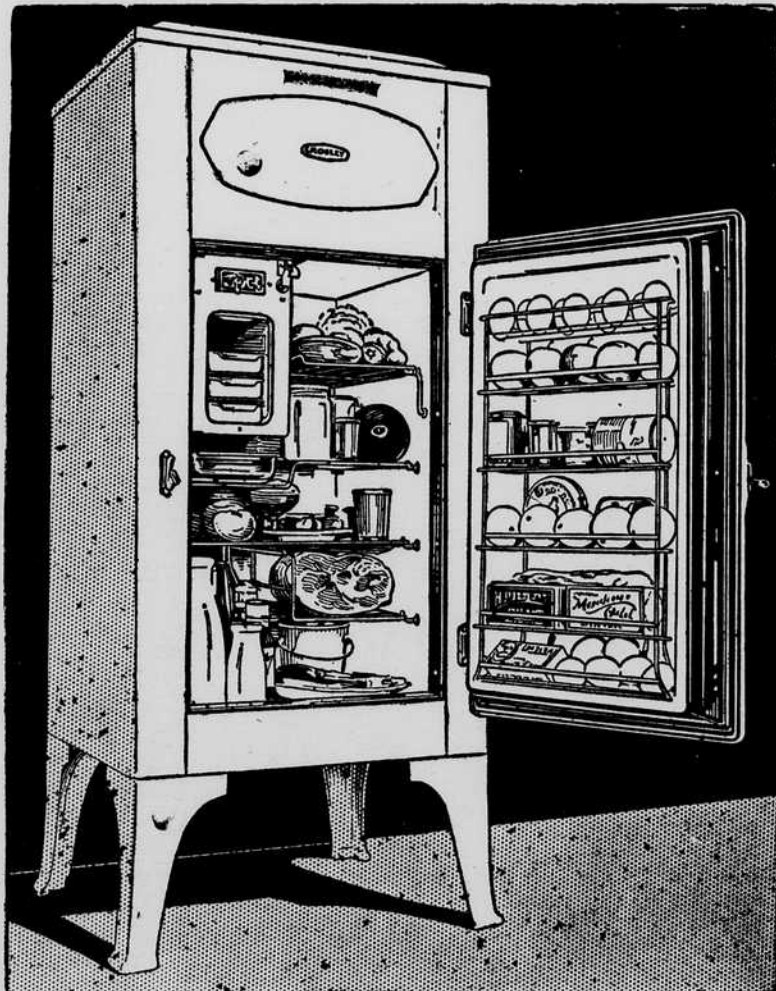

a week.

"You Can See at a Glance the Wonderful Convenience of the Shelvador"

THE SHELVADOR

An Exclusive Patented Feature of the

CROSLEY

ELECTRIC REFRIGERATOR

Just open the door . . . and THERE it is — the SHELVADOR! Here in a nutshell you have the newest and most important improvement in refrigerator cabinet design since the invention of the ice box.

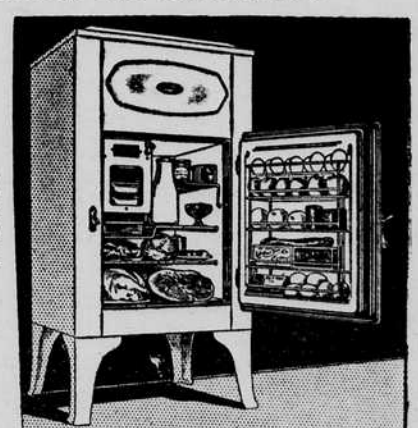

Now . . . no more reaching . . . no more searching for the little things that, in ordinary refrigerators, are so hard to find! No more disarranging of everything . . . no more sleeves dragged through butter . . . no more foods leaking through the shelves. Think of the time saved . . . think of the increased "usable" capacity of the New Crosley Electric Refrigerators with Shelvador. Shelvador actually gives the Crosley Electric Refrigerators greater capacity than their ratings indicate by increasing their "usable" capacity. Try to put everything that goes into Shelvador on the shelves of an ordinary refrigerator, and you'll be amazed. An orange takes as much "shelf room" in the ordinary refrigerator as a bottle of milk. In Shelvador it takes only the space of an orange.

ONLY CROSLEY OFFERS IT!
 The added convenience of Shelvador costs you nothing. Even if the New Crosley Electric Refrigerators did not have this feature, they would still be the world's outstanding refrigerator values at the new low prices. With Shelvador, Crosley Electric Refrigerators go so far beyond ordinary values that there is nothing with which to compare them. They are famous for trouble-free operation, quietness and convenience.
