Dr. Will Durant Is Speaker At E.C.T.C. Exercises Monday

Seventy-five young women and two young men received degrees from East Carolina Teachers College, Monday morning, June 5. One hundred and three received the normal school diploma at the same time. The largest crowd ever assembled for commencement assembled to see these graduate, and to hear the address of Dr. Will Durant, noted philosopher, author, orator and teacher.

At the close of the exercises President Wright made several important announcements. Gifts to the Student Loan Fund for the year total \$1,178.42. The total enrollment during the year, counting no students twice, is 1290. In compliance with the recent law, the Board of Trustees fixed a tuition charge, which will be \$12.50 per quarter. The total amount paid by each student will be \$77.50 per quarter.

The Academic procession used this year for the first time was very impressive. The music thru out the commencement was very beautiful.

Dr. Durant delivered a truly great address on the subject "Is Progress Real?" He reviewed the stages of progress throughout the ages, named the achievements of mankind that have never been lost, and that show man's steady climb upward. He enumerated ten of these: Speech, fire, conquest of animals, agriculture, social organization, morality, science, writing or printing, and education. He said that without education all that mankind has achieved would be lost, and impressed upon the graduates the tremendous responsibility that rested upon them in transmitting the heritage of the race.

"Fearless Individualism" was the theme of the baccalaureate sermon Sunday morning, June 4, which was preached by Dr. Charles F. Myers, pastor of the First Presbyterian Church, Greensboro. His text was John 21:21 "What is that to thee? Follow Me." He gave as the three stages we pass through in becoming real individuals: the assertion of ourselves, the becoming sick of ourselves, and the forgetting of ourselves. He gave as the three needs of every person before he can become a real individual, faith in God, power and pardon. His sermon was rich in apt illustrations.

He told them ways in which they could be of service to the State as well as to their Alma Mater. He reminded them of the amounts allotted by the State for the upkeep of the roads and education of the children, and said "Educate the children and if the roads are torn up they will build them back; fail to educate the children and build roads and the generation we fail to educate will tear them to pieces."

USING NEWSPAPERS

How to reach a large number of customers or prospective customers most economically and effectively is a problem which still worries a great many business men. But it was really solved long ago, and the answer is this: Print your message in the newspapers.

Recently a Detroit electric company which serves 500,000 customers in nearly 200 cities and smaller communities wanted to send them a series of letters. After considering the various methods of distributing these messages, it was decided to use local newspapers exclusively. The first letter sent out, signed by the president of the company, began as follows:

"We have a lot of things to tell you which are of interest because you are our customers. We might get your attention by circulars delivered at your door, or by radio broadcast. But we think the best way to reach you is by successive letters in the newspapers, of which this is the first."

In certain special cases the use of circulars or the radio may be fairly effective, but for definite results economically obtained no advertising medium ever devised even approaches the family newspaper.

Wake Up Your Liver Bile —Without Calomel

And You'll Jump Out of Bed in the Morning Rarin' to Go

If you feel sour and sunk and the world looks punk, don't swallow a lot of salts, mineral water, oil, laxative candy or chewing gum and expect them to make you suddenly sweet and buoyant and full of sunshine.

For they can't do it. They only move the bowels and a mere movement doesn't get at the cause. The reason for your down-and-out feeling is your liver. It should pour out two pounds of liquid bile into your bowels daily.
