

# ESSAY CONTEST AT TARBORO

## Aurelian Springs Graduate Ties For Second Place

### Irene Whitehurst Will Enter State Finals At Raleigh

EDITOR'S NOTE—A picture of Julian H. Shaw, Littleton youth who tied for second place honors at the Eastern district eliminations, will be found on page one, this issue as well as the pictures of other contestants winning honors.

Tarboro, July 13.—Competing against four other contestants in the eastern district essay contest of the North Carolina Cotton Growers Cooperative Association, Miss Irene Whitehurst, 16-year-old Coneto High School graduate, won first prize of \$10 and the right to enter the State final contest which will be held in Raleigh July 28.

Miss Grace Mewborn, 13-year-old Snow Hill High School junior, and Julian H. Shaw, of Littleton, who was graduated from Aurelian Springs High School last spring, tied for second place and each was presented with prizes of \$7.50. Third prize of \$5 went to Miss Mildred Davis, of Hendleton, and fourth of \$2.50 to Miss Mary Lane, of Hertford.

The prizes were delivered by James B. Lloyd, Tarboro newspaperman, who made a strong speech in which he pointed out the many benefits derived from the essay work.

M. G. Mann, of Raligh, secretary treasurer of the cotton association, who presided over the contest, called attention to the fact that in the Eastern district every student in six schools participated in the contest this year. The six one hundred per cent schools were announced as Battleboro, Severn, Perquimas, Rock Ridge, Saratoga and Conetoe.

Pointing out that the essay contest is of great educational value, Dr. Joseph G. Knapp, associate agricultural economist at State College, said he would term "Rural North Carolina's Greatest Need," subject of the contest this year, "a perpetuation of the essay contest into future years."

In her essay Miss Whitehurst, who will compete in the State finals in Raleigh, July 28th, against three other district winners for first prize of a college scholarship, termed rural North Carolina's Greatest need as "Organization." She called for organization in the marketing and buying of farm products, organization of banking and storage facilities, and organization that would control production.

Starting early in the spring a series of school, county and field district elimination contests were held to select the winner of the eastern district. The eastern district, of which Miss Whitehurst is champion, is composed of the following 15 counties:

Northampton, Hertford, Halifax, Nash, Vance, Pitt, Martin, Chowan, Bertie, Gates, Edgecombe, Granville, Beaufort, Washington, and Perquimans.

Mrs. Rachel Stern of Chicago told the police that her husband hadn't spoken to her for eight months, but they were unable to help her.

Several Lincoln County farmers have thrashed from 500 to 1,000 bushels of wheat each.

### More Chevrolets Produced In June Than In 2 Years

Production of new Chevrolet cars and trucks in June more than doubled output for the corresponding month last year and was the largest single month's production in two years.

With a total output of 81,577 units, June compares with 36,141 in June last year and with 68,538 in May this year, previously the

best month since June, 1931.

The high June total was made possible only by the splendid morale and co-operation extended by the more than 36,000 employees now on the company payrolls.

Every effort has been made thru the depression, it was pointed out, to provide for regular Chevrolet workers. Through regulating hours of work per week to retail demand, and by building up parts stocks in lean seasons, it has been possible for eleven months of each year since 1929 to hold Chevrolet

payrolls to within ten per cent of the average of 32,500 men.

June production exceeding May is unusual in this company's experience, since either April or May are normally peak months of the year.

Mr. and Mrs. Julian Allsbrook and son, Richard, spent several days last week at Wrightsville Beach, N. C.

Miss Florienne Holt is spending this week at Ocracoke, N. C.

### DISTRESS AFTER MEALS Relieved By Black-Draught

"I had sour stomach and gas," writes Mr. Jess Higgins, of Dawsonville, Ga., "and often I would have bilious spells. I read about Thedford's Black-Draught and began to take it. It relieved me of this trouble. I keep it all the time now. I consider it a fine medicine. I take a pinch of Black-Draught after meals when I need it. It helps to prevent sick headache and to keep the system in good order."

Get a package at the store. Try it! Now you can get Black-Draught in the form of a SYRUP, for CHILDREN.

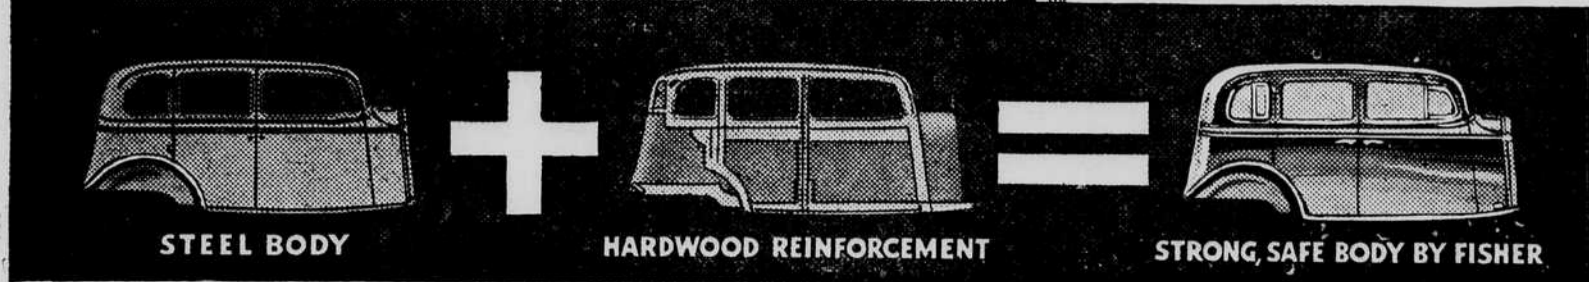

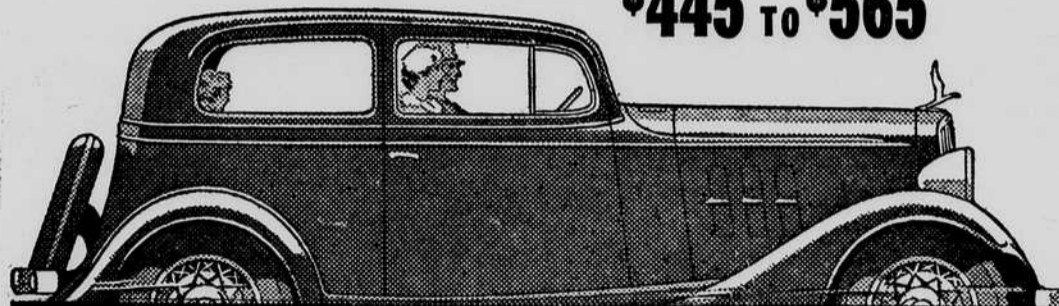

—neither strong enough, nor safe enough, nor quiet enough for the body of a quality car like **CHEVROLET**

**CHEVROLET** Why is it that every 12-cylinder and 16-cylinder car in America has bodies of steel reinforced by hardwood? Why is it that every make of car selling for over \$4000 uses bodies of exactly the same type? Why? For the same reason that Chevrolet uses it exclusively. Because every test and every experiment have definitely proved: **STEEL ALONE IS NOT ENOUGH!**

The trouble with steel alone is that it stands just so much shock and punishment. Steel alone is also inclined to rumble and rattle. BUT—when you put the two together—a heavy, staunch steel body over tough, solid hardwood—then the hardwood reinforces the steel—and vice versa! And the result: the strongest, safest type of body, such as Fisher builds for Chevrolet. **CHEVROLET MOTOR CO., DETROIT, MICH.**
