Use This Laxative made from plants

Theford's BLACK-DRAUGHT is made from plants that grow in the ground, like the garden vegetables you eat at every meal. NATURE has put into these plants an active medicine that stimulates the bowels to act—just as Nature put the materials that sustain your body into the vegetable foods you eat. In Black-Draught you have a natural laxative, free from synthetic drugs. Its use does not make you have to depend on cathartic chemical drugs to get the bowels to act daily. Now you can get Black-Draught in the form of a SYRUP, for CHILDREN.

THE BLUE EAGLE

Good-luck to General Johnson Chief of the N. R. A. Who thru the fields of industry Blazes a new highway.

We like his strong straightforward talk He told us at the start That in the N. R. A. campaign Each man must do his part.

All Parties blend—as all true men unite to save the State From coast to coast the slogan rings Sign! And co-operate.

The women who for equal rights Have fought with tongue and pen Now bravely sign on dotted line As loyal as the men.

The N. R. A. knows neither sex, Nor race, nor cult, nor creed. It has scant room for critics and No place for graft or greed.

All hail—the bold Blue Eagle God speed him on his way And guide his flight from gloom and night Up-to the dawning day.

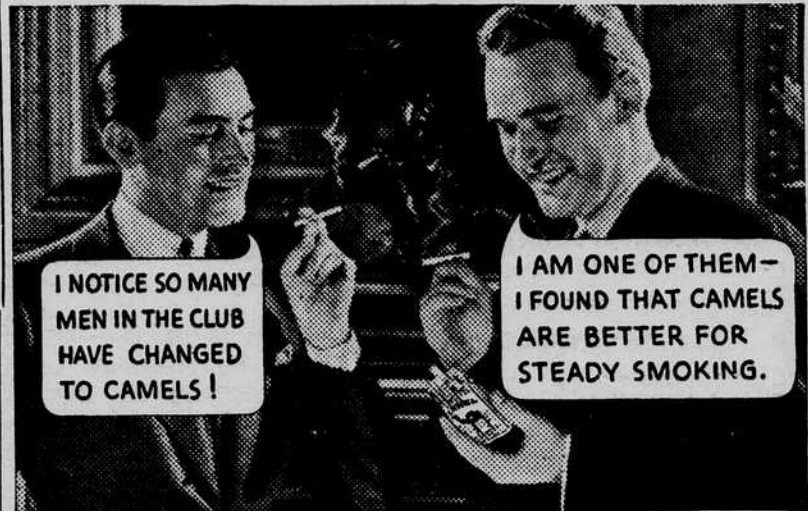

—Tom Meacham, Washington, D. C.
