### CHARLIE FAYED IS INJURED

Victim Of Eye Injury While On Hunting Excursion Still Unconscious

It has been more than 24-hours now since Charlie Fayed, 45-year-old employee of a local grocery store was brought to the hospital here with his right eye almost gouged out, and several wounds caused by blows on his skull, evidently the victim of a mysterious injury while on a lone hunting excursion. Fayed is still unconscious, or at least, not rational enough to give a plausible explanation for his injuries.

Fayed has been taken to his home here, after emergency first-aid treatment was administered at Roanoke Rapids Hospital. He is resting well, according to the family, but speaks vaguely of his accident, if it was an accident, and of his injuries. It is thought he will possibly lose the sight of his right eye, and there are several abrasions on his head, mute evidence to the fact that he was possibly hit by a blunt instrument, and very likely the victim of foul play.

According to Tucker Fayed, cousin of the wounded man, and proprietor of a grocery store near Roanoke Junction where Charlie Fayed is employed, he left Wednesday morning on his weekly hunting trip, and was expected to return to the store before noon. As the hours went on, Tucker could not account for his not returning, but thought he doubtless was meeting with better luck than usual, and would be back shortly. But when Fayed returned, he was brought back in an ambulance, shortly after 4 o'clock Wednesday afternoon.

What intervened is still unknown. W. W. Jones, of this city, returning from a hunting trip, found the small "pick-up" delivery truck Fayed was driving, in a four-foot ditch on the old Garysburg-Weldon road. Fayed was injured and an ambulance was called.

The shot gun Fayed carried was in the car. In the back was a wild turkey he had evidently killed. The car was in second gear, with the switch key turned on, leading observers to believe that the motor had stalled, and that Fayed had met his injuries at another point; climbed into the truck in an ef-

Engineers will arrive here shortly making preliminary surveys and estimated specifications for the work, and the actual contract will be let early in December. Work should definitely start on this project soon after the first of the year.

Second: The road leading from Camp's Store, in Northampton County, to the Virginia line, enroute to Lawrenceville, will be hard surfaced. Construction on this project will start immediately, and it will be an oil-treated road, similar to the Roanoke Rapids-Littleton highway.
