MERCURY IN RECORD DROP HERE

The coldest weather in the memory of any person here came to this section last Friday night, January 31st, when the mercury dropped to what may be an all-time low.

On that night, it registered 5 above at the Power Plant; 1 above near John Shaw's in Northampton county; exactly zero at Weldon.

Fortunate for many, there was no wind blowing Friday night and the low temperature was not noticed as much as it was at other cold periods with a cold wind blowing.

There were some variations in thermometer readings at various parts of the city and in various portions of this section, but it can be safely said that this section had its first real taste of zero

RECORD of forty Ground Hog Days: the old saying is if Ground Hog sees his shadow Feb. 2nd, will have 40 days bad weather. Record shows: clear and cold, 12 days; clear and mild, 15 days; cloudy and rain, 6 days; rainy all day, 3 days; colder and clearing, 4 days. In fact, the 4 days following the 40 ground hog days were clear and fine too. The Ground Hog is a poor prophet, says Weather Recorder F. C. Hege.

BRIDGE to Lincoln Heights back of Rosemary Mfg. Co. was washed out by the flood waters and the Harlem of Roanoke Rapids is just about cut off from the rest of the world, what with the South Rosemary entrance also in bad shape from the storms. Question now is: who puts up a new bridge? It is not a State road, and one side of the bridge would be in the city limits, one side in the county, the creek being the dividing line. But a new bridge is badly needed and at once.

G. T. MORRIS was elected chairman of the Halifax County Old Age Pension Club at a meeting held here last week. The purpose of the club is to work for old age pension legislation in this State and try to get the Governor to call a special session of the legislature for that purpose.
