

UNUSUAL EXHIBIT COMING TO WELD'N

Biological Exhibit Of Exceptional Merit and Educational Value

Heralded as the greatest educational exhibition of all time, the Mammoth Marine Hippodrome, will exhibit in Weldon for one day only, Saturday, November 13th, on a special constructed railroad car over 100 feet long, near the A.C.L. Freight Depot.

"Colossus", a 68 ton sea monster, over 55 feet long, is one of the feature attractions. This monster of the deep has created a furore throughout the United States, Canada and England, where he has been exhibited. The country's leading educators have proclaimed the exhibit of unsurpassed educational value and every student of biology and natural history should attend the exhibit. Accompanying the exhibit are numerous veterans of many years experience in the whaling industry, including Captain David J. Burnett, who has spent the past 50 years sailing the "Seven Seas," whose lectures furnish one of the highlights of the exhibit.

Another feature with the exhibit

is the world's only lady flea trainer and her troupe of performing fleas, "The London Flea Circus." Stunts that are performed by these tiny insects are really incredible—kicking footballs, riding tiny bicycles, pushing little carts, doing a fan dance and many other astonishing feats.

"Sea Tiny," nature's strangest enigma, known the world over as the living "Mermaid", has become a mecca of interest at the exhibit. Possessing no vertebrae or back bone, or spinal column, she is a puzzle for scientists and a despair for doctors. Sea Tiny is one of life's tragedies and it will be up to the public to decide whether she is a fish or human being.

From the time you enter the exhibition car until you leave you will be thrilled, startled and amazed by the many unbelievable sights on display.

The exhibit will remain in Weldon for one day only and will be open to the public from 2 p.m. until 10 p.m.

Welfare Dept. Gives Milk To 126 Children

The Welfare Department of the Woman's Club met last week with the Chairman, Mrs. P. A. Reid, and reports were given of the various activities. The most outstanding was report of milk furnished; at present this department is furnishing milk to 126 children every school day; this is a splendid piece of work and results from this work are most gratifying. This department is at present working in cooperation with others in trying to get two children in an orphanage. Committees appointed by the Chairman for the year were Clothing Committee, Mrs. Bahnsen Weathers, Chairman, Mrs. B. J. Dunning, Mrs. R. H. Hundley, Mrs. Ned Manning and Mrs. R. P. Beckwith. Christmas Cheer Committee, Mrs. R. L. Towe, Chairman, Mrs. A. E. Akers, J. C. Hoyle, J. M. C. Covington. This committee takes care of an opportunity case at Christmas, and various other ways helps to make the holiday a hap-

pier day.

The Hospital Committee with Mrs. W. A. Thorne as Chairman, Mrs. Bahnsen Weathers, Mrs. William Wolhar and Mrs. Upshur Higginbotham, visits the hospital and if there is anyone there from out of town who has no relative to look after them they take flowers and magazines, and at Christmas they see that every tray to each patient has a Christmas card.

In many ways this department is doing a wonderful work and going about it very quietly; whenever you can lend them a hand, send them old clothes and donate to the milk fund and help them with their work.

The following members were present at this meeting: Mesdames R. P. Beckwith, Bahnsen Weathers, A. E. Akers, J. M. C. Covington, B. J. Dunning, Upshur Higginbotham, R. H. Hundley, J. C. Hoyle, W. H. Wolhar, Heath Lee and Ned Manning.

Quankie Church
