INITIALLED TERRAPIN

There's nothing new about Terrapins, around Roanoke Rapids and vicinity . . . especially along the banks of the Roanoke River, but an "Initialled Terrapin,"-well, now, that's something else. Nevertheless, one was picked up this week by Beaufort Vincent, colored employee of the Halifax Paper Co. who lives out Vultaire way. Beaufort was walking along the banks of the Roanoke the first of the week when he happened upon the strange phenomenon pictured above. It's a Terrapin, and according to alert observers who examined it when brought to the Herald office, the initials "C.E.E." (which may be plainly seen from above photo) are unmistakably natural marks. On the other side the initials "J.F.E." appear. We offer no explanation, but rather ask you to be the judge. Grant snapped the picture, and the Terrapin may be examined at the home of Vincent.

The death of Mr. Taylor came as a distinct shock to the community, and Roanoke Rapids keenly feels the loss of one of its best-loved citizens. Mr. Taylor had been in declining health for the past several years, though was active in the management of his grocery store, in which business he had been engaged for well over a quarter-century, up to the time of his death. His last illness was only of a few days duration, and his condition
