IT OUTWEARS THE SHIRT!

You spend so much money every year on shirts. What part of this investment is waste because the collars wear out while the shirt itself is still good for many months of wear? Figure it out for yourself.

The new Everness Collar on Essley Shirts is an exciting new step forward in collars — being made of a specially fabricated cloth that not only *outwears* the shirt — but is twin to the shirt in color and pattern. As far as we know this latter feature is an Essley "scoop."

And, additionally, the Everness Collar is Trubenized — which means that its fresh, clean charm is preserved in untrammelled neatness from morning until night!
