

# CONSTRUCTION SCENES HERE

\*THAT Roanoke Rapids is now enjoying a veritable "building boom" is very apparent, as the above scenes, taken the first of the week by the Herald's roving cameraman readily disclose.

UPPER LEFT photo shows the construction work now in progress of the new wing to the Rosemary Manufacturing Company offices. The work is progressing rapidly, and will soon be completed, giving the mill offices much-needed additional space.

UPPER RIGHT you see the steam shovel "digging in" on the large excavation job for the basement of the building being built by J. Winfield Crew, Jr., at the corner of Roanoke Avenue and Tenth Streets. Our cameraman caught the shovel as it was loading one of the many trucks used to transport the dirt to Crew's Chaloner Park development. Plans call for a full basement for the 75x140-ft. two-story building, which is to be completed by February 1st. Crowds of curious on-lookers have watched the shovel all week as it removed ton after ton of dirt. Excavation work was halted today because of rains, but work will soon resume, it is said.

LOWER LEFT you see the new, modern brick front to Johnson's Laundry plant located at South Rosemary. When completed, this will be one of the most modern laundry and dry cleaning plants in Eastern North Carolina.

LOWER RIGHT is the best view it seemed possible to get of the new Sunday School building of the Presbyterian Church. Because of the growth of trees in front of the building it is practically impossible to obtain a good photograph. The building will be occupied by November 1st, it is thought, and is located directly behind the church building, facing Fifth Street.
