Wrong Address

During the excitement of a fire at 110 Monroe Street here, residence of Grady Hawkins, the local fire department was called to go to 310 Monroe Street—but it turned out all right.

It happened that W. C. Duke, a local fireman, lived in the neighborhood of the Hawkins' home and when an oil stove blazed up about 9:30 Saturday morning he extinguished the flames in short order.

Meanwhile, at 310 Monroe Street the fire department was busy waking up residents of the house only to be told that they knew nothing about a fire.

KEMP IS NAMED AS SOFTBALL COMMISSIONER

First District Tournament Will Be Here

F. S. Kent of this city has been appointed as commissioner of the first softball district, which covers eastern North Carolina, by Secretary John Marshall of the North Carolina Softball Association.

The First District tournament in which three teams—Roanoke Rapids Romancos, Rocky Mount and Wilson—have entered will be played here on August 20, 21, 22, 23. Commissioner Kemp will make out the schedule, and has full charge of the First District tournament. Two losses in the tournament will eliminate a team.

The Romancos of this city will open the tournament on August 20, according to tentative plans, playing Rocky Mount's softball team on the Patterson field. The second round will be at Ledgerwood Park, home grounds of the Romancos; the third at the Roanoke Mills park, and the finals on Saturday night, August 23, will be

*moved back to Legerwood Park.

A delegation of local men went to Raleigh to confer with State Softball Association officials about getting the district play-offs here. Those making the trip were J. R. Meikle, chairman of the City Softball League; F. S. Kemp, secretary of the local organization; and J. W. Brank, Shearod Crumpler, and Bill Allgood, all members of the city league board, and Oakley Vaughan.

Festival

It's doubtful if a lot of milk will be consumed at the Festival, but in the interests of national defense there are gruelling days ahead for workers in all capacities. Right here is where milk comes in. National health is a very important phase of national defense and milk plays a major role in the health of the nation. Especially now workers need the high quality nutritional elements contained in milk to keep up body energy.
