

Need Youths For Work On NYA Project

A hundred boys, white and Negro, will be needed to work on the construction of the Scotland Neck NYA center, which is scheduled to begin on January 1.

Wade H. Dickens, chairman of the Defense Projects Committee of the Scotland Neck Business Bureau, said that the youth labor, ages from 16 to 25 and not in school, would be used for construction work under the supervision of experienced foremen. It is planned to provide employment for both races during the construction period.

Those who are interested in securing such employment are urged to contact Mrs. Lanie Hayes, personnel officer for the NYA, who is at the Town Hall in Scotland Neck every Friday morning from 10:30 to 12:30 o'clock.
