

# LOCAL MILLS LAUNCH VICTORY BOND DRIVE AMONG WORKERS

## Sale Of Defense Bonds Started In All Four Mills

Plans are underway in Roanoke Rapids mill industries for a Victory Bond Drive, during which all employees of the Roanoke, Rosemary and Patterson mills will be sold, voluntarily, defense savings bonds and stamps, officials of the three mills have announced.

Plans for the drive call for the worker's authorization to the company by whom he or she is employed to deduct a certain amount from his weekly or monthly pay check to go toward the purchase of defense savings bonds and stamps for himself or for any member of the worker's family.

Letters were mailed to each member of the organization of the three mill companies here this week urging employees to give their consent to the purchase of bonds and stamps through the plan drawn up by officials of the three companies. A portion of the letter reads as follows:

"Believing that every member of our organization would like to have a part in the Defense Program, this company has provided a plan of voluntary, systematic savings, available to all who will participate. The plan is simple. You authorize the company to deduct from your weekly pay-check whatever amount you feel that you can save and invest each week. This amount will be deducted and regularly credited to your individual Defense Savings Bond account. Each time a total of \$18.75 is accumulated the Company will purchase a \$25.00 Defense Savings Bond which will be registered in your name and delivered to you.

"Your country needs your help. Your money will be put to work at once in the National Defense Program to protect the safety and the freedom of the United States of America. At the same time you will be building up a savings reserve that may be found to be very helpful or needed by yourself and your family in the hard times which may be expected to follow this war. In helping your country you will, at the same time, be building the habit of saving which is the bed-rock of security."

Attached to each card mailed to an employee was a pay-roll allotment authorization card, which the employee was to fill out and return to company headquarters in the event he wished to participate in the savings plan.

Officials of all three mill companies expressed the hope that every employee would participate in the plan, both for their own benefit as well as for the amount of funds the plan will make available to the Defense Program.

## LETTERS from Our Readers

### THE MARCH OF DIMES

Just a little dime wondering what it could do,  
Another came along and then there were two.  
Two little dimes out on a spree,  
They looked around and then there were three.  
Three little dimes, looking for more,  
They found one and that made four.  
Four little dimes on a big drive  
Picked up one and then there were five.  
Five little dimes doing a few tricks—  
Another joined the group and that made six.  
Six little dimes wishing they were eleven,  
One came along and that made seven.  
Seven little dimes marching through the State,  
Puled in one and then there were eight.  
Eight little dimes, marching in line,  
Another joined in and that made nine.  
Nine little dimes keeping out of sin—  
Another came along and then there were ten.  
Ten little dimes all in a row,  
United they stand to fight the foe.  
Ten shining dimes who had a lot of fun  
So that some helpless child could again walk and run.

Roanoke Rapids.
