NEEDS

Young AMERICA

is on the **ALERT** for
Back to School
Roll-Call.....

After a summer spent playing and working for Victory . . . American girls and boys will soon answer "Present" to the school bell that calls them back to classes. All present too, are the clothes and necessities they will need to see them through another school year. While their brothers and fathers, sisters and mothers work and fight to preserve American ideals, these youngsters learn and live the doctrines we are fighting for. Good, sturdy American wearables, to take the lead in preparing Young America for the future that will be theirs. Today as never before, the watchwords of the homes that send boys and girls back to school are Health . . . Happiness . . . Tolerance . . . and good old Yankee Thrift!
