tion, eight are already done for. Throughout the Reich, war production had by early 1943 declined according to some estimates even 20-percent, half of this drop being the result of air-raids. The average productive efficiency of a German worker is down 40 percent from 1939-40 levels - chiefly due to the effect of the raids.

Reprinted with kind permission of *FACTS* - August issue.

When the going gets worse, the General Staff - Industrial-Junker group will probably stage a "palace revolution" against Hitler and try to sell the Allies on a negotiated peace with a "safe" German like Dr. Schacht, General Von Braunisch, or even some anti-Hitlerite like Pastor Niemuller as the head of the State. In 1919, the German General Staff began to plan for the Second World War. For two hundred years German militarists have followed in general the Wallenstein plan for the conquest of Europe.

**What You Buy With WAR BONDS**

**Water Camel**

Thirst is one enemy of armies and navies that may be frustrated by a generous supply of water. Typhus, another dreaded plague is another enemy that must be subdued in Africa, in the jungle islands of the Pacific.

So the "Lister Bag," more often called the "water camel," or just "camel," is used. The "Lister Bag" is a khaki colored canvas bag having a capacity of about 30 gallons. It will require many War Bonds to provide enough "camels" for our fighting forces at home and abroad. Yours too! "Back the attack with War Bonds." U. S. Treasury Department
