the Regional Office of OPA, it would be necessary to send in the actual figures on Longview Dairy before a larger figure would be recommended.

A discussion was had in regard to the City placing a sales tax on milk and refunding the tax to the dairymen on presentation of the tax coupons.

Sam Powell was present and stated that he could not keep his dairy open unless some relief was offered him.

D. E. Iles stated that his dairy was a sideline and that while he was not making any money he was not planning to close it.

Eric Norfleet, Attorney, representing Mr. W. J. Long, of Longview Dairy, at this meeting, stated that Mr. Long's audit had not been completed and that he therefore did not have the actual figures. Mr. Norfleet stated further that as Mr. Long's attorney he could not advise him to accept the sales tax for, in his opinion, it would be illegal. Mr. Norfleet suggested that a representative or representatives be sent to Washington to take up the matter directly with the OPA.

The Mayor and Board were of the opinion that unless the actual figures could be obtained to present to the OPA, it would not be worthwhile to go to Washington.

Motion was made by V. E. McDowell, seconded by R. I. Starke, that the Board of Commissioners realizing that there is a serious milk situation in Roanoke Rapids and desiring to co-operate in every way possible to relieve this condition, hereby appoints a committee composed of the Mayor and Finance Commissioners to investigate the matter and do all possible to relieve the critical milk situation. Motion carried.

A discussion was had in regard to amending the City Milk Ordinance but no action was taken and the Clerk was instructed to write to the dairymen and ask what change or changes they desired.

TAXI RATES

B. F. Johnson appeared before the Board and stated that his gas allowance per car had been cut from 49 gallons per week to 35 gallons per week and that since the drivers worked on a percentage basis they could not make a living wage. Mr. Johnson stated further he called Mr. Ingram of the ODT in Raleigh and that Mr. Ingram advised that he increase his rates to meet the decrease in gas. Mr. Johnson submitted a list of prices to certain points in and around Roanoke Rapids for the year 1943 and a suggested price list for 1944 and asked the Board to approve these prices or to suggest other prices.

The Board did not take any action in the matter.

TROY HOLLOMAN'S SALARY
The Clerk stated that the New Amsterdam Casualty Company under the City's Workman's Compensation Policy is paying Mr. Holloman, City Police Officer who was injured while on duty, \$21.00 per week and asked the Board for instructions as to continuing his salary.

Discuss Postwar Rehabilitation Church Missions

The problem of postwar rehabilitation of their churches, hospitals, publishing houses, and other missions properties destroyed by war in foreign lands, is now to receive special attention in every Seventh-day Adventist congregation. A. L. Dickerson, pastor, said in giving a report of an executive session of church leaders just held in Washington, D. C.

This destruction has run into many millions of dollars, delegates to this meeting were told, and, beginning now, budgets must include appropriations for rebuilding, it was urged, "This will call for larger liberality and sacrifice on the part of every Seventh-day Adventist member."

Mr. Dickerson said that plans were laid for opening a medical training school in Chungking, China, to qualify Adventist Chinese young people, and the nationals of other countries in the Orient, as physicians for their hospital staffs, this to be sponsored by the College of Medical Evangelists, the Seventh-day Adventist medical college at Loma Linda and Los Angeles, California.

Steps were also taken at this national meeting of leaders, he said, looking toward revising and strengthening the Bible instruction given in their elementary and secondary schools, and the training of a large number of young people of the church as teachers and ministers to meet the growing demands of now and after the war.

Tuberculosis Seals Campaign

This year the Tuberculosis Christmas Seals have traveled to the far corners of the world, where our American Boys fight for the things America stands for; For Love, Sympathy and Aid to the sick and the poor.

Thanks to everyone for using the Tuberculosis Christmas Seals so generously in 1943. It is certainly too late to buy any more seals, but if you failed in the rush of the season to get any, the Association in your County can still use your money should you want to make a contribution.

To everyone who has done so much volunteer work in your localities remember that your work hasn't been completed until your County Chairman has received all of your data. January is certainly the month to clear up all extra activities and check up. Your Publicity Chairman needs all the figures so she can publish them in the near future.
