In the last game the Pecks ran off with a onesided victory over the Lions 20-8. Peck collected their runs off 24 hits and 12 errors on the part of the Lions. The Lions who seemed to have trouble all night fielding the ball gained 8 runs off 9 hits and 5 errors committed by Peck.

Raines was the big man of the night. He hit two home runs for Peck, one with no one on and the other with two on. Batteries for Peck were Fleming and O'Neal and for the Lions Reid, Harris and Read.

Tony Harris had to relieve H. P. Reid on the mound in the fifth inning when Reid was hit on the hand by a line drive. Mr. Reid received a good hand when he left the box. Most of the spectators were for him. He is 63

Noted Actor Has Role In Lost Colony Drama

HARRY IRVINE

Manteo, N. C.—Harry Irvine, noted British India-Born actor now a naturalized citizen of this country will have the role of historian in THE LOST COLONY. Paul Green's exciting and romantic drama opening for its eighth season in The Waterside Theatre on Roanoke Island July 1 and continuing through Labor Day with shows each week, Wednesday through Sunday nights. Irvine is a graduate of Oxford University, playing his first theatrical engagement with Sir Herbert Tree in Richard II.

Later he came to America in Forbes-Robertson's farewell to in 1915-16. He has played in Walter Hampden's last performance of Hamlet and was a lecturer and teacher during a 10-year period ending in 1926.

He returned to Broadway to play Thomas a' Becket in T. S. Eliot's "Murder in the Cathedral." He is president of the American Shakespeare Foundation. His book, THE ACTOR'S ART AND JOB, was published by E. P. Dutton in 1942. Last season on Broadway he appeared in Joan of Lorraine, Dear Judas, and Skipper Next to God.

Communication facilities in Roanoke Rapids include Western Union Telegraph, the Carolina Telegraph Company with a modern dial system, and 10 incoming and outgoing mails daily.

Veteran News

The Veterans Administration has opening for nurses in hospitals and regional offices in Virginia, North Carolina, West Virginia and Maryland. Beginning salaries range from \$2,644 to \$5,902, depending upon training and experience.

Nurses who wish to apply or who want more information should write to the Chief of the Nursing Division, Veterans Administration, 900 North Lombardy Street, Richmond 20, Virginia.

Veterans are urged by the Veterans Administration to use official VA premium mailing envelopes when paying National Service Life Insurance premiums by mail.

Use of the yellow envelopes, VA said, helps expedite handling of G. I. insurance payments since full information necessary to process the payment already is included by VA before the envelope is mailed to veteran policy holders.

Q. If I filed a change of address with the VA hospital or regional office where my claims folder is on file, will the same change be made on my insurance records?

A. No. Change of address for purpose of compensation or pension is not a notice of change of address for insurance purposes. VA Form 889, "Change of Address," should be executed by the insured to notify the Insurance Service at 900 North Lombardy St., Richmond 20, Virginia.

Q. When may a veteran decide whether he will pursue training under the Servicemen's Readjustment Act (G. I. Bill) or under the Vocational Rehabilitation Act?

A. After eligibility has been established under both laws.

The daughter of a civilian employee at the Naval Air Station, Jacksonville, Fla., had a chronic case of hiccoughs so she was taken for a ride in a plane which zoomed, rolled and snapped in an effort to scare her out of them. The ride didn't cure the girl, but it made her father pretty sick.

In 1945 North Carolina's 77 principal crops had a total value of \$613,037,700.

State College Answers Timely Farm Questions

QUESTION: When should lime be applied to pastures?

ANSWER: At any time when labor is available and you can get on the field with the spreader. However, if there is danger that the limestone may wash away, it should be put on at a time when this danger is at a minimum.

QUESTION: What are the most practical types of silos?

ANSWER: Permanent silos are of two types. The upright tower silo, which is more common, is usually cylindrical. Its diameter usually ranges from eight to 20 feet, and its height from 30 to 50 feet. The other type is the trench silo, which may or may not be underground. It ranges from a width of five to seven feet at the bottom, and seven or more feet deep, to any suitable length. The important thing is that it must be well-drained.

QUESTION: Is the mulching of new pasture seedings advisable?

ANSWER: Yes. Spreading a small amount of manure or straw per acre is valuable in protecting new seedings.
