

An Editorial A Twice Told Tale

Most people who read stories such as Phil Holden's account of his accident react positively; sometimes, though, the most reasonable person can miss a point.

We've all heard about seat belts, and it's only human to grow weary of good advice which comes too often and without being requested. We have to be sure our reactions don't interfere with our judgment.

So far as is known, none of the Kangaroo Club members either sell or install seat belts. No one pays them to say the things they keep telling us in these unsolicited testimonials.

Most of us have seen the "Convin-

cer," either in front of the plant last summer or at the picnic. Looking at it was enough for many of us who watched someone else come to that crunching halt from a leisurely five miles per hour. The Kangaroo Clubbers are saying the same sort of thing: they would rather not have taken the ride, but they're all glad their seat belt was fastened when it happened.

Some of us have been reacting against good advice ever since Mom started telling us to brush our teeth. Now, as then, failing to heed the message will hurt us more than it hurts anyone else. —Hale

Congratulations!

Tom

Tom Walker Dies

G. T. Walker of maintenance services died December 18 at the age of 64. We extend our sympathy to Eloise and to his children, Thomas, Carol and David. Tom was well-known and loved. We lament his passing.

Tom gave this newspaper its name back in July 1968. His career with the company began in 1947 with the construction division. He had been a part of almost every area's operation since beginning his work at Brevard in 1958.

Welcome New Employees

Wanda

Two coop students from Georgia Tech started work here in December.

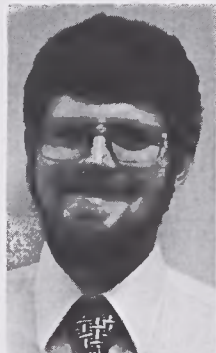

Wanda Gilbert, a freshman majoring in chemical engineering, is the daughter of Mr. and Mrs. S. S. Gilbert of Barberry Heights, Brevard. Mr. Gilbert is a process engineer in Process Control.

Mark Andersen, a sophomore majoring in chemical engineering, is the son of Mr. and Mrs. Robert Andersen of 227 Balsam Road, Hendersonville. Mr. Andersen works in Facilities Planning.

Both have been assigned to Process Control.

Mark

Carl
