MR. ARCHER PLEASED WITH THE STANDING OF SCHOOLS IN CITY

Leads All North Carolina Cities in Statistical Standings of the Public Schools.

HE FAVORS SCHOOL BONDS

Money Raised From Bond Issue Would Be Used to Erect New School Buildings.

"Naturally, I am very much gratified that the Greensboro High School for another year has topped those of the principal cities of North Carolina. However, I am far from satisfied with the standing and believe that it will be possible to obtain an even higher standing of perfection," said Superintendent Archer in speaking of the showing made by the Greensboro High School during the past year.

"While I do not claim to be a long-faced alarmist," he further added, "unless Greensboro receives a favorable verdict in the School Case of Greater Greensboro, now before the Supreme Court of North Carolina, I honestly believe that it will be with only the hardest kind of a struggle that we will be able to maintain our present high standard."

It is a double-period class under the supervision of Miss Lena Boley, head of the Art Department in the Greensboro City Schools. Practically all of the fifteen pupils enrolled are freshmen.

Full credit is given for the course, since six periods a week are spent in study.

At present the class is engaged in the making of a manual to be used in the study of their subjects. It will include projects in wood-working, textiles, paper, printing, book-binding, clothing, food, leather, glass, and clay. These subjects will not be taken up in detail, however, because the fields are so large and the time so limited.

Excursions to various industrial plants in the city will be made as the class progresses.
