Archer Presents 145 Graduates Diplomas—Phillips Makes Awards and Recognition of Work

At the graduation exercises on June 1, three silver cup awards will be made to the outstanding seniors in the class. These include essay contests and a short story contest.

For the past several years the Morehead cup has been given to the student who writes the best essay on a subject pertaining to the Revolutionary period.

There has been a short story contest for several years, known as the O. Henry contest. At first a cup was the award, but it was later changed to a set of the works of O. Henry.

The Greensboro Civitan Club this year started another essay contest. This is one to promote citizenship and a new subject is chosen each year pertaining to citizenship.

Besides these awards, a scholarship prize will be given the senior having made the highest average during his high school career. A cup will be given the senior who is voted best all around by his fellow classmates. These awards will be made by C. W. Phillips, principal. Henry Biggs will receive a silver cup for a chemistry paper. This will be presented by Professor Jennings, of Greensboro College.

Diplomas and certificates will be presented to 145 graduates by Frederick Archer, superintendent of Greensboro schools. On the back of the diplomas an entire class roll is printed and a complete record of high school work. Miss Lottie Morgan, school secretary, is responsible for all this work.

GATE CITY SCHOOLS PRESENT PAGEANT

"The Gift of England" Given at the World War Memorial Stadium

MANY PUPILS TAKE PART

"The Gift of England," a pageant written by Miss Kate C. Hall, of the Aycock faculty, was presented by the children of the grammar schools of Greensboro at the World War Memorial Stadium, Tuesday, May 15. About a thousand pupils took part in the performance.

Each department of the city schools had a certain task in preparing for the large undertaking. The music department furnished an orchestra for the occasion. The art department, under the direction of Miss Lena Boley, took charge of the artistic side of the program. The physical education department coached the dances for the different scenes.

The pageant was arranged in ten episodes which told the story of English and American literature. The prologue opened with a group of children gathered from all parts of the world to celebrate a May day festival on the border of Fairyland. The use of a giant story book, on whose pages the story of English and American literature was told, was brought in the prologue. This scene was staged by students from Pomona Grammar School.

The first episode pictured the Canterbury Pilgrims and was staged by students from McIver school.

The next scene was Robin Hood and the ballad makers of England, which was staged by students from Glendale school.

The third episode was a tableau representing the famous poems, "L'Allegro" and "Il Peneoso," by Milton. This scene was staged by students of Caldwell school.

The pageant clearly followed the history of literature, ending by a Maypole dance by the children from Glendale. Miss Hall and Miss Mary Morris directed the pageant.

Bill Byers, a member of the June graduating class, and president of the Student Council at Greensboro High School, has passed all his entrance requirements to Annapolis. Robert Leonard, a 1926 graduate, has also passed his.

FREDERICK ARCHER EXPRESSES VIEWS

Is Well Pleased With Work That G. H. S. Is Doing This Year

TELLS OF PRIZES WON

Frederick A. Archer, superintendent of the Greensboro Public Schools, said in a recent interview, "I am more than pleased with the work being done by G. H. S. students."

"Prizes are a poor thermometer," he continued, "but since no yard-stick could exactly measure the effort of G. H. S. students, we will take these into consideration." He then recounted outstanding prizes that Greensboro has won this semester. "This progress is not due so much to the teachers," Mr. Archer added, "as to the students."

Continuing, Mr. Archer expressed extreme satisfaction over the betterment of education. "My father," he said, "used to have the idea that education was only a suitcase with a small box of geometry and a large bundle of Latin and English."

"Some students," explained the superintendent, "have ideas which center around the library. For these students, in the new high school, we wish to have a large library. On the other hand, those students who ideas center around drama should have adequate facilities to carry these ideas out. Those students who wish to make an extensive study of science should have a museum where specimens of woods, rocks, birds, and the like could be kept. This is the school board's idea for the new high school," said the superintendent in concluding.
