EDITORIAL**JUNIORS ATTENTION!**

Are we setting an example to the Sophomores and Freshmen by our conduct in Chapel? Why they even behave better than we do. We are the first ones to come into chapel and you know if we come in giggling and talking the other classes will follow our example. Let us start the exercise right by coming quietly into chapel. Then the other classes will follow their leader. Let's be one hundred per cent strong in perfect chapel behavior.

BASE-BALL

The baseball practice for the coming season has just begun and from the looks of things, it seems that the baseball team representing G. H. S. this year will be as good as the last year's State Champions big team.

There is a large number trying out for the various positions, but there are not as many as were expected to come out. It seems as if the main object of these boys now out practicing is to equal the record made last year, and under the guidance of Mr. Phillips, our coach, this seems possible.

When a fellow goes out for base ball he should not only consider the enjoyment he derives from it but also the fact that it helps him. It develops a boy mentally and physically and when I say it helps him mentally I mean it helps him to think more quickly and more accurately. Physically it builds up his body and he enjoys good health. It also occupies the time that he would spend loafing or at something not half as beneficial as base-ball.

The new College Athletic ulings were noted by us with interest. These rules were drawn up by several southern colleges and have been set up by them to govern the eligibility of college men in athletics. The one year rule, which prevents Freshmen from being on athletic teams; the three year rule, which permits men in a four year college to be on athletic teams for only three years; and the rule forbidding men taking part in athletics in one

college to take part in that of another college were the main rules adopted.

If the colleges think that it is necessary to adopt stricter rules governing the eligibility of men in athletics, shouldn't the high schools at least look into the matter? If these rules were adopted by the high schools, it would cause the athletic contestants to be more equalized; and thus not have boys of the right high school age playing boys in the twenties who have failed on their work for two or three years. Thus the rule would prevent much of the tales concerning "ringers" which is prevalent in high school athletics of today, for in fact, many of these so-called "ringers" are only men who have failed on their work and are still playing on high school teams despite their age and size.

For this reason and this one alone it would be a wise move for the high schools to look into this matter, especially after the colleges have taken such steps.

GREENSBORO'S NEW VENTURE IN MUNICIPAL GOVERNMENT

Greensboro became somewhat disoriented with the commission form of municipal government because of its apparent backwardness and unprogressiveness. On March 1, the voters of the city unanimously chose the council manager plan of municipal government to supercede the commission plan.

The council manager plan is worked on a basis very much like the big business corporation. The members of the council, who are chosen by the people, correspond to the board of directors of a business firm and the manager, himself, to the manager of a business firm. He is hired by the council to supervise the civic health, civic works and other departments of the city government on a business-like basis and not from a standpoint of political power which is bound to arise in the commission plan.

BOYS!**Always Remember:—**

True economy lies in buying the best and skipping the rest. You get out of **SHOES** what the maker puts into them. Cheap shoddy **SHOES** are most **EXPENSIVE** in the **END** because of their **EARLY END**. This is not a "JUST OUT" Store. We have been in business more than thirty-two years; and last year was the largest in our history, and feel that we can justly claim to know something about **SHOES**. When you buy **SHOES** here you get the benefit of our knowledge and experience. We are all set for a big spring business. Are you with us?

J. M. HENDRIX & CO.**"The Home of Good Shoes"****223 South Elm Street****Greensboro, N. C.**

The business-like manner in which the city manager plan is conducted ought to make it less expensive and more efficient. Any man with a good business head ought to make a good city manager. One promising thing about this plan is that if a manager does not prove satisfactory the council can discharge him at any time and choose someone else in his place.

The general opinion of the people is very optimistic in favor of this plan and with its present "backing" it should prove very successful.

THE NEED OF STUDENT'S GOVERNMENT IN G. H. S.

Our country is democratic and all of its citizens should work for the good of it. Our school approach the monarchies of the eighteenth and nineteenth centuries. The pupils are the subjects of such a monarch. The object of our schools is to make good citizens for the country. Then why not make the government of our schools more democratic? The future citizens of America will be we boys and girls, who today are going to school. Then why not start while in school?

Have you ever seen a person who, did wrong and thinks he hasn't a chance at anything? Then have you ever heard that this same person was given a chance on his own accord to do better than he made good? Yes, all of us, perhaps, have known this kind of person intimately.

When we are put on our honor to do

what we think is best for ourselves and others, are we not going to do better? This one fact can put Student Government on a fine running basis in our school.

If you look about you, you will see daily, things which are both disgusting and demoralizing. Is our school to be classed low because of its students constant use of lowly things? No, Greensboro High School has the material for one of the finest schools in North Carolina, if we only heed the things which are constantly coming in our pathways.

Student Government would not make our school perfect, but it would help correct some of these things, and make us a better school. We Juniors are trying to put this system in G. H. S., but we cannot succeed alone. The success of this method depends upon every individual as well as the classes taken as a whole.

If we are for the best athletic teams and debating teams, then, why not the best government? Before long it will be the privilege of the three upper classes to decide whether or not we adopt this system.

The Juniors are working hard for this to succeed. Won't you help us?

If we support our school in other activities, then, why not in government, for is not the key to the success of all concerns the management? The Junior Class with the help of every student in the school can make this one of the best governed schools in the state. Are you with us for a bigger and better G. H. S.?
