

## NEW HIGH SCHOOL TO BE READY TO USE BY NEXT FALL TERM

\$800,000 Building Will Have Facilities to Accommodate 1,500 Students

### FIVE BUILDINGS ERECTED

Cafeteria, Science, Gymnasium, and Home Economics Classes Are Situated in Different Buildings

Greensboro will have a new high school by next fall. Construction began on the building January 2 when representatives from the high school witnessed the breaking of the ground at 9 o'clock. Charles Rives, president of the student council, shoveled the first dirt.

The building, costing \$800,000, is being erected by the Angle-Blackford Construction Company. Officials say it will be ready for occupancy at the beginning of the fall term, September, 1929.

Plans for the structure show that it is located on a tract of one hundred and thirty acres of land, with a frontage of fifteen hundred feet on West-over Terrace. Accommodation is being made for one thousand and five hundred students in the fireproof edifice.

The administration building is in "T" shape, two hundred and sixty-five feet long. A large corridor will extend down the center of the building, lined by class rooms on each side. The auditorium will be in rear of this structure. It will seat sixteen hundred and fifty people.

"The stage is the realization of all of Mr. Grady Miller's dreams," according to Mr. C. W. Phillips, principal of the high school.

Forty classrooms, twenty study halls and laboratories, the principal's office, and various clinic rooms will be located in the administration and science buildings. Four other buildings complete the new plant—the cafeteria, a one-story building, the science building, the gymnasium and home economics building. The gymnasium includes modern equipment and facilities.

## DR. CHARLES E. BARKER TO GIVE LECTURES HERE

Comes Under Auspices of Y. M. C. A. From Salt Lake City to Visit All Schools

### TO DELIVER ADDRESS AT G. H. S.

"Dr. Barker's talk reached about 3,000 students, and when I say reached, I mean just that. In my high school experience of 32 years I have never heard anyone who put his message over with greater effect," says G. A. Eaton, assistant superintendent of public schools, Salt Lake City, Utah. And this same Dr. Charles E. Barker will be in Greensboro on January 20, 21, and 22. During his stay here he will visit practically every city school and N. C. C. W. and Greensboro College.

The lecturer comes here under the auspices of the Y. M. C. A. and every day of his time is scheduled for several lectures. On January 20 he will appear at some local church and then Monday and Tuesday will be devoted to lectures at the schools, colleges, civic organizations, and assembled audiences.

The former health adviser of President Taft is from Grand Rapids, Michigan, and since the Taft administration he has devoted his winters to lecturing.

## BREAK GROUND FOR NEW SCHOOL

Student representatives and officials present at the ground breaking were, reading from left to right: E. D. Broadhurst, chairman of the board of education; Mrs. C. T. Lipscomb; not identified; C. L. Jacobs, representing Angle-Blackford Construction Company; not identified; Rachael Lipscomb, girls' athletic representative; Annette Donavan, president semester 8; not identified; Bill Petree, boys' athletics; Melisse Mullens, student; Miss Fannie Starr Mitchell, dean of girls; Elizabeth Boyst, Girls' Council; Louis Brooks, *Homespun*; Miss Mary Morrow, president of Faculty Club; Carl Jones, president of semester 7; H. S. McCray, associated architects; Clyde Norcom, *High Life*; C. W. Phillips, acting superintendent of city schools; and in the foreground, Charles Rives, president of Student Council, digging first shovel of dirt.

## S. W. GRAFFLIN TALKS TO G. H. S. STUDENTS

Appears at Carolina Theater Under Auspices of Chamber of Commerce

### IS INTERESTING SPEAKER

In speaking of "Six point living in a three way world," Mr. Samuel W. Grafflin sanctioned "good hard work, proper associates, and real worship." Mr. Grafflin was in Greensboro under the auspices of the local Chamber of Commerce and on January 10 he spoke to the high school students assembled at the Carolina Theater. Secretary of the Chamber of Commerce J. A. Gawthrop, introduced the speaker. Prior to that Principal Phillips made several announcements to the assembly.

As a boy Mr. Grafflin started out to find the things in life that matter most and now as he reaches the age of retirement he says that he has sought and found. "Good hard work, and it's a blessing to the world," he declared he learned first, "and genuine high-tone association will never bring regret. For," the speaker says, "if you pal up with the easiest people, it'll keep you from meeting anybody better." The third essential was cited as real worship. From experience and contact Mr. Grafflin concluded that "every normal man works, associates, and worships."

In this "compound-complex" world the speaker says there are six qualities which will help students find the things that matter most in this three-way world: good health led the list, a growing mind, thrift, prayer, which he termed as the open road to rectitude, strength, and kindness, a spirit of service, and a sunny, agreeable attitude.

"And it is with these six points that a person can live in this three way world," concluded Mr. Grafflin.

"All the work that is worth doing, rightly handled, is the greatest fun of all the fun there is."

### Examination Schedule

Senior Exams, Jan. 24 through 29  
1st and 6th periods, Jan. 24  
2nd and 3rd periods, Jan. 25  
4th and 5th periods, Jan. 28  
Regular Exams, Jan. 29 through 31  
1st and 6th periods, Jan. 29  
2nd and 3rd periods, Jan. 30  
4th and 5th periods, Jan. 31

## C. S. P. ASSOCIATION TO MEET IN N. Y.

Delegates from Greensboro Will Spend Ten Days in Metropolis

### MANY PUPILS TO ATTEND

Journalists and publication advisers from junior and senior high schools all over the United States will convene in a meeting of the Columbia Scholastic Press Association on March 8 and 9. This is the fifth annual convention of the association and will be held at Columbia University, New York City. Speakers for the program have not yet been announced, but several lectures are scheduled.

Soon after the opening meeting there will be an exhibit of school publications. One address is scheduled for the opening day, Friday, March 8, after which there will be sectional meetings. In these meetings topics relating to problems of the publication staff will be discussed. Completing the first day's program is a moving picture lecture and dinner. Saturday, the last day of the convention, will be taken up with an address, round table discussions, business meetings, convention luncheon, and a varsity show at the Waldorf-Astoria, after which the convention adjourns.

For the past four years there have been delegates from the G. H. S. publications. Each year there are a number from G. H. S. attending the convention and this year there will probably be ten students and an adviser. Instead of spending only the two days for the conventions the representatives from *High Life* and *Homespun* will stay for a period of ten days.

All papers entering the contest, in which *High Life* and *Homespun* will be entered as class B, must be received by February 2.

"Happy is the man who in the crisis has a strong, clean accumulated past to draw upon."

## G. H. S. GRADUATING CLASS SELECTS SUPERLATIVES

Seniors Name 12 Graduates As Superlative Types—Margaret Brittain Takes Two Places

### PICTURES SEEN IN LOCAL PAPER

Members of the mid-term graduating class named the senior superlatives at a class meeting Monday, January 7. At that time the secret ballots from the seniors designated the 12 class superlatives.

Margaret Brittain was voted the most conceited and the most talkative. She was the only one to take two places. Katherine Nowell and Rose Goodwin each were chosen as superlative types and tied for the most enthusiastic. Rose was declared the best sport and Katherine the most charming.

Tim McLean received the largest number of votes for the most handsome, with Margaret Little as the prettiest girl. Most timid and most loyal went to two girls, Edwinna Jones and Alia Ross, respectively. John Foster was voted the most original. Irvine Stone and Edith Ellington received the highest number of votes as the best-dressed boy and girl. Votes were also cast for the best all-round senior but this will not be announced until February 1, at the commencement exercise.

Pictures of these superlatives appeared in the *Greensboro Daily News* January 13.

## 364 NEW STUDENTS WILL ENTER G. H. S. AT FIRST OF TERM

Welcome to Be Accorded New-comers by Girls' Council of the High School

### NEW TEACHERS REQUIRED

Four Instructors Added to Math, English, Science, French Departments With New Teachers in Each

"In an already overcrowded plant it is necessary for G. H. S. to make room for a net of more than 300 new pupils on February 4," says Acting Superintendent C. W. Phillips.

With the 364 new pupils from the grammar schools will come four new teachers. These teachers will be added to the English, mathematics, science, and French departments, one teaching in each field. Students will come from Aycock, Caldwell, McIver, Glendale, Buffalo, and Pomona.

Several projects to welcome the new students will be sponsored by the Girls Council. In welcoming the mothers of these pupils the P. T. A. plans a meeting for January 31. At that time the parents will be acquainted with the routine of the high school work. Following the meeting the mothers will be entertained at tea in the cafeteria. The executive committee of the P. T. A. is especially anxious that all mothers be present at that time.

The chief problems of the authorities at the present time is to find standing and sitting room for the 300 new students as they come in from the grammar schools of the city. At the present time everything is practically filled to capacity. The mid-year graduating class will be leaving at the same time, but 51 empty seats cannot by any stretch of the imagination or by any practical means be made to comfortably take care of 300.

It will be necessary for each session room teacher to take a few more pupils into rooms which are already overcrowded. Although too many pupils in the session rooms will cut down Greensboro's rating, this remedy will have to be applied until the new high school is completed.

## G. H. S. ANNUAL DEBATERS TO HAVE TRIAL CONTEST

Any Students Who Are Interested Are Eligible to Compete in Preliminary Tryouts

### G. H. S. WON AYCOCK CUP IN 1926

Greensboro High School debaters will hold the preliminary contest for the annual debate during the first week of February. There will be entrants in the try-out from the Debating Club, and any other students interested are eligible to compete.

Winston-Salem, High Point, and Greensboro will make up the triangle of this section. It was in 1926 that G. H. S. debaters won the Aycock Memorial cup and for the try-outs that year there were more than 30 students. Such a large number of contestants is indicative of results, and so the debating executives this year urge that a large number begin work now.

The query for discussion is resolved: That the United States should enter the World Court. Winners in the preliminaries will meet the High Point and Winston teams at a date yet undecided. The successful team will then compete at Chapel Hill.
