## 570 SUBSCRIPTIONS ARE SOLD

**HOMEROOM 25 IN  
LEAD WITH 80.5 PER  
CENT; ROOM 21 NEXT**

James Perrin and Martha Jane Mitchell Are Leading Salesmen.

**MANY PRIZES OFFERED**

Proceeds to Benefit High Life and Band—School Receives Half of Money.

Endeavoring to make this magazine contest the high school's greatest and most successful, the students have entered enthusiastically into it and, as a result 570 subscriptions have been sold. James Perrin and Martha Jane Mitchell are leading salesmen.

James Wolfe, last year's high seller, and Jane Webb are the leaders of the Forty-Niners and the Klondikers, respectively.

Through the cooperation of the Greensboro merchants, it is possible to offer a variety of capital awards from which the highest salesmen may take their choice. The prizes include radios, watches, wearing apparel, and sports articles. In addition to these, there are 36 Crowell prizes from which those who do not take capital awards may choose.

Not only will the students who participate in this campaign receive prizes, but they will be benefiting the school, for it will receive approximately 50 per cent of receipts. This money will be used to buy new uniforms for the band and to provide funds for publishing HIGH LIFE. As Mr. Hooks, the faculty adviser, might say, "These two reasons in themselves should be incentive enough."

Now comes the best part of the rewards: The highest seller will have his picture printed in HIGH LIFE, and he will be honored in the "Personality of the Week" column.

Although the campaign has been a success so far, we still need more subscriptions; so, as Mark Cole might say, "Yea, Ho! Let's go!"

How Would You Like to Have This One?

We mean the radio, of course, not Jean Stafford. The combination of the radio, donated by Kester Furniture store, and the good-looking girl, looks like the makings of a delightful evening at home. Work hard, boys, and maybe it can be arranged for the winner.

Appropriation of Five Hundred Dollars Made by School Board for New Volumes.

#### GOAL IS 5 BOOKS PER STUDENT

Five hundred dollars has been appropriated by the school board for the addition of approximately 400 new books to the school library.

At the present time the total number of volumes in the library totals 6,415, 477 of which have been added this year; and to retain membership in the Southern Association of Secondary Schools and Colleges, there must be a minimum of five books per pupil. With the addition of 400 new volumes to the school library, G. H. S. hopes to measure up to this standard and continue membership in the association.

#### Science Department Aquariums

The science department has just received three new aquariums, which are to be installed in each of the three biology laboratories. These will not have any fish in them, but will contain such marine life as star fish, sea urchins, and hermit crabs. The aquariums will be arranged to resemble the ocean bottom.
