

# Red Cross Course Being Taught by Mrs. M. Walker

## 60 STUDY HEALTH

The care of infants and small children, the prevention of disease, and the intelligent care of sick members of a family, under the direction of the family physician, are the main features of a new course now being taught to 60 girls of G. H. S. The course was designed by the Red Cross to give practical instruction in personal and family health.

### Mrs. Walker Is Teacher

This study is being conducted by Mrs. Margaret Walker, of Baltimore, Md., who is a registered Red Cross nurse, and a graduate of Columbia university. While studying at this New York university, she received the same preparation for teaching that every high school teacher must have.

Mrs. Walker is teaching four classes of 15 girls each in the Science building office. The room, with its bed, table, and large array of medicinal supplies, greatly resembles a miniature hospital.

While being interviewed by a HIGH LIFE reporter, Mrs. Walker remarked, "This is one of the nicest high schools with which I have ever been associated; and there is a remarkable interest here in the type of work I am doing."

### Press Chairman

Above is Elizabeth Newton, G. H. S. junior, who was recently elected one of the chairman for the coming year at the North Carolina Scholastic Press institute meeting in Chapel Hill.

# DELEGATE MADE ASSISTANT HEAD

## Elizabeth Newton, "High Life" Reporter, Becomes Officer at Press Meeting.

When the press delegates from G.H.S., Nelle Bookout, Paul Pearson, Ruth Heffner, Carolyn Ballow, and Mrs. Betts went to Chapel Hill recently, they little dreamed that they would return with one of their number, Elizabeth, elected co-chairman of that part of the Institute which includes schools with more than 500 students.

Other officers of the North Carolina Scholastic Press Institute for the year 1938-39 are as follows: Virginia Hasinger, Raleigh, general chairman; Frank Johnson, Statesville, co-chairman of schools with less than 500 students; and Roy Stroud, Chapel Hill, chairman of the mimeographed papers.

These officers will cooperate with David Stick, a Daily Tar Heel reporter and this year's director, in arranging for next year's convention.

While in Chapel Hill, the G. H. S. representatives toured the Orange Print

Shop on Friday and attended the opening meeting of the Institute. The following day they attended meetings from 9:30 to 5 in which they discussed the different phases of newspaper work. That night, Carl Goerch, radio commentator and editor of the *State* magazine, was the feature speaker at the lawn party. Then officers were elected and plans were made for a permanent organization. The delegates returned home Sunday.

### Club Honors Miss Hyams

G. H. S.'s faculty club gave a party for Miss Edna Hyams recently at the O. Henry hotel.

### Creative English Notebooks

The Creative English class recently handed in their notebooks of original material. Among the most notable was Ruthe O'Connor's "Wool Gathering" with a clever cover done in stitching. Some of the others were Nancy O'Brien's "Modern Maid, Mooning" and Edna Caveness' "Forgotten Angel."

## DRAFTING CLASSES SHOW MUCH PROMISE

The 45 students enrolled in the G. H. S. drafting classes this semester are striving toward the goal of a thorough knowledge of drafting, its principles, and practical uses. To obtain this goal, it is necessary for the class to master the fundamental principles involved in drafting and then proceed in specialized work. It is necessary to have a knowledge of mathematics, particularly geometry, and it is essential that individual attention be given each student.

The work is presented to the students in an interesting way, and this tends to develop in the student, imagination and skills which can be helpful in other courses offered by the high school.

The students of the drafting classes are showing promise in this field, and some of them have indicated their intention of attending one of the southern engineering colleges.

### Mrs. Fowler Resigns

The G. H. S. faculty will lose one of its most valuable members in the fall when the resignation of Mrs. J. W. Fowler becomes effective. Mrs. Fowler, since joining the high school's teaching staff in 1936, has been an outstanding member of the science department. She is leaving school in order to be with her husband who is entering the ministry.
