Lockers Repaired During Vacation

Mr. Stanley Johnson and a crew of five boys spent the entire summer repairing lockers. At total of \$5,000 was used on new locks, lockers, and the repair of old ones.

All lockers were removed from the wall and tightened. Fifteen thousand bolts were put in the lockers. Doors on the lockers were also fixed. Mr. Johnson asks that if any of the doors do not work properly that this be reported to him. A new locker will be issued to the student.

Since there was trouble with rats bothering food left in lockers last year, they have all been rat-proofed.
