

**Home Economics Students Attend "Family" Conference**

On November 14, eight students from the home economics department attended the third annual North Carolina Conference on the Family.

Those attending from the marriage classes were Fred Jones, Bill Luper, Frank Matthews, Elaine Leonard, Becky Squires, Sara Ann Taylor, and Ann Kersey. Betty O'Connor from the child-care class attended also. Teachers accompanying the students were Miss Mary York, head of the home economics department; Mrs. Isabelle Powell, marriage and home economics teacher; and Mrs. Love, teacher of kindergarten at Senior.

The topic of discussion at this conference was "The Family as a Unit of Service in Fostering Personality Growth and Development." Key addresses at the convention were "Families Come First," given by Dr. Ernest Osborne, professor of education at Teacher's College; "How Family-Centered Are the Helping Professions?" delivered by Dr. Ruben Hill, who is professor of sociology and research professor in the Institute for Research in Social Science in the University of North Carolina; and Dr. Elizabeth Vaughn, head of the department of sociology and economics at Meredith College, spoke on "Personality and Family Stresses in Wartime Conflict."

The purpose of this convention was to participate in comprehensive research and planning to achieve the goal of wholesome family life.

**My Old Steady**

I did it! I've finally succeeded! Tonight, I take her out once more. It's been three months now since I've been seen on the streets with her. When I used to go steady with her, everybody was my "buddy." She attracted more attention than I myself did. On some days I went without my dinner, so I could take her out that night. People used to get "chummy" with me for the express purpose of being near her.

Then all of a sudden, she quit! Maybe she was just getting tired of me. Maybe I wasn't spending enough money on her, or maybe it was someone else. I don't know.

But I've been working on her now for three months, and tonight is the night. I stayed up most of last night "working" on her. After I got up this morning, I went to see her first thing. I begged, I pleaded, and with a final prayer turned the crank. The motor started. Ah! sweet success!
