Bible Members Help With Needy Children

the Morningside housing development.
Each Bible class has a family to which it takes clothing and toys for the children. There are several committees each consisting of from two to six students, depending on the age of the children they are aiding. For Easter the Bible students are going to take Easter baskets to the children of the needy families.

The project, which began about three or four weeks ago, will be continued after this semester, if it is at all possible.

The idea for the project originated when Mrs. Randolph talked to the man owning the housing project. He gave her the names overval needy families in the new development, and Mrs. Randolph turned the names over to Bobbie Tice, projects chairman. The students were then divided into committees, the aid being purely voluntary.
