

Howard Hinshaw Winner Of Earlham Merit Grant

Howard Hinshaw, a senior here at GHS, has been awarded the Earlham Merit Scholarship worth \$1,000 to be awarded at a rate of \$250 a year.

Howard is one of 20 recipients of this scholarship. Earlham College is a liberal arts college in Richmond, Indiana and is run by the Society of Friends. It is a school of approximately 800 students.

Howard took an examination in January and received notification of his winning two weeks ago. He plans to major in either physics or chemistry.

He has been at Senior High in his junior and senior years after spending his freshman and sophomore years at Asheboro and Guilford High Schools respectively. Howard is a member of the Spanish Club and has made the special honor roll consistently since his coming to Senior High. This scholarship was awarded

on the basis of four major points. The first one is character; Howard had to submit four references from Earlham College graduates and from his minister. The second quality is scholarship. The third qualification concerns the applicant's participation in high school and extra-curricular activities. The fourth is the promise of the person's future usefulness to society.

The college reserves the right to revoke the scholarship if the receiver does not maintain a scholastic average of B. Holders of this scholarship may be called upon to perform various services for the college, like taking attendance rolls and serving as ushers at various school functions.

Howard is an active member in his church, the New Garden Friends Meeting in Guilford College. His father is the Executive Secretary of the North Carolina Yearly Meeting of Friends.

Rufus Russell, Sophomore Elected As President Of New Science Club

Rufus Russell, sophomore, has been elected to serve as president of the Science Club, which was recently organized by sophomore biology students who are particularly interested in science.

Officers supporting Rufus are Ronnie Price, vice-president; Sarah Ann Cox, secretary; and Jerry Kennon, treasurer. Miss Helen Turlington, biology teacher, is adviser to the club.

Since the aim of the club is to promote and encourage an interest in science, the members were naturally active during the recent science fair. Many of them furnished electrical outlets for the fair while others acted as guides to the evening observers. As a result of its interest and support of this year's fair, the club has obtained permission to sponsor the 1957 Fair.

At present the club project is cleaning the biology office on the second floor of the Science Building. In addition to the general cleaning the group plans to re-bottle and re-label specimens in the Biology Department.

In addition to the officers, the charter members are Ann Bolding, Riley Brown, Boyce Crothers, Jack Day, Herbert Dumaresq, Bob Hammers, Sonia Howell, Meyressa Hughes, John Lee, Susan Levine, Don Newlin, Charles Pratt, Lee Pickard Max Snodderly, and Carol Weitzel.
