Preyer	987
O'Steen	646

Is It Worth It?

Is any person willing to almost ruin his future? Marijuana can do this to anyone who is foolish enough to be associated with it. Conviction for the possession or sale of marijuana can deprive the victim of his U. S. Citizenship, application to medical school, and the opportunity to take the Bar examination.

Marijuana is a major problem of ours, the youth of today. It has been established that the majority of people who sell and use the drug are under 20 years of age.

The problem has been presented to us. Now, it is up to us to decide which direction we want our future to go!
