YRC will have Andy Kennedy as their chairman next year. He received 780 votes, while Carolyn Edwards, his opponent, received 516 votes. Joe Frazer Expresses His Views About Next Year

The winner of the school re-election held here at Grimsley on Friday, April 24, is Joe Frazer, a very concerned young man. He is concerned about the things which are criticized by the students here and expresses a sincere desire to hear these criticisms and do something about them. His main concern is Student Council, and its lack of touch with the student body. "Student Council doesn't reach out to students with enough of a personal touch," he related in an interview with this staff member. He is at the present moment seeking permission for a study on representation of Student Councils in other schools, in order to discover the best methods of representation, that is, which will involve students the most. He intends to reach students with a Human Relations Committee, which will replace the suggestion box. This committee will serve as a go-between for the students and the council "chambers". The members, largely non-council members, will hear the complaints and suggestions first-hand, and can answer any questions asked in and out of school. Joe plans to involve students in major council affairs with vote, but to do this will require a well-informed student body. Making all council meetings open to anyone will be a major step. Joe also plans to

work closely with the editors and staff of HIGH LIFE to let the students in on what's going on in council. At each council meeting, a copy of the minutes will be drawn up for use in the paper, so everyone will know what is going on.

One of his problems next year will be popular opinion. He wants to carry on government affairs as you want them to be carried on. To find out how you want things done, he proposes a system of polls containing questions about important issues in school life.

"The dances I hope will no longer be a concern of the student Council, but be turned over completely to the Youth Recreation Committee," he said. "And as for the pep rallies, there should be more of them for more people. If we have more people at the rallies, we'll probably have more at the games. And when you get two thousand fans packed into one side of a stadium all screaming their heads off, we can't lose!"

Finally, a completely new idea to our school is being proposed by Joe. It is called a Paperback Book Exchange. Students may bring in any paperback they have and exchange it for another, no matter what the difference in price. This means that, in one year, a student may start out with one paperback on his shelf at home, and at the end of the year still have the same number, but end up having to read a hundred paperbacks free.

In general, Joe is hopeful. He wants to do many of the same things that all of us want to see done. He has many new and original ideas that can work if he has the support he needs. A president with over 2100 students in back of him who care, can succeed in changing things for the better much more than one whose students are uncaring, uncooperative, or a bunch of critics. Help him do the things you want done. Give him support. GET INVOLVED.

Senior Class Project Cancelled

The MORP dance scheduled for Saturday, April 25th, was canceled. This was the result of an insufficient number of tickets sold. The Senior class sponsored this as an additional money making project to their ribbon sales. Money was refunded to the students by the individual ticket salesmen. HIGH LIFE is sorry about the previous article announcing the dance. We went to press before the dance was cancelled.
