## Vandalism

# School In Disrepair

On Tuesday, May 4th, three incidents of broken car windows were reported to the Greensboro police department. Two of the victims were Grimsley students and the other was a voter in the Senate primary elections. These incidents were part of the minority which are reported; police estimate that fewer than fifty per cent of vandalism incidents are reported. Instead, the victims usually take action themselves against the vandals.

The Greensboro Police Department investigated the matter but failed to apprehend the car thieves. Police would not discuss the matter, but did say, "Articles of value are often left in full view without the doors being locked. Things should not be felt out, but in glove compartments or under seats."

On Tuesday, April 28, BB's were put in the air valves of 26

buses in the Grimsley parking lot. Though no tires were slashed, the tires had to be pumped back up. This brought about a 45-minute delay for some "unfortunate" students.

"The kids put BB's so the tires would leak slowly. If a cop came by they could not be caught for doing anything wrong. It was really no big deal," commented Mr. Gulla, who is in charge of all Grimsley buses.

These vandalism acts are not limited to the parking lot only. A rash of thefts have occurred in the gym. Articles, including gym pants, shirts, money, belts and cigarettes have been stolen from the gym "lockers". The problem obviously lies in a tremendous lack of security of the "lockers." But the gym is limited to strict budget and simply can not spare the money.
