

Grimsley Executive Council

Juniors Elect '79-'80 Officers

Ken Anderson, Lee Coyle, Jo Ann Engle, Lydia Harris, and Carl Winfield claimed the five Grimsley Executive Council positions for next year's senior class on June 1.

senior council will elect among themselves a president, Student Affairs chairman, YRC chairman, Pep Board chairman, and student body president.

Also running for Executive Council positions were Lisa Tagert, Susan Shelton, Dawn Sutton, Stan McAdoo, Lucy Linton and Jenny Enright.

Indermaur Places 5th In Math Competition

Election speeches were given in the auditorium on May 27 to the members of the junior class. One of the most outstanding speeches was given by Stan McAdoo. McAdoo promised "to represent the talented and untalented, the smart and not-smart." His presentation moved the audience when, at the end of his speech, he proclaimed, "I hope to make Grimsley Senior High the number one school in the United States of America."

Junior Mark Indermaur claimed fifth place in the first annual Nort Carolina Mathematics Competition making him eligible for a plaque and a scholarship in Raleigh on May 24.

and scholarships. Governor Hunt presented the awards to the finalists. Indermaur was the only junior in the top five.

Indermaur, Conrad Newton, Diane Doles, and Denise Doles were selected to participate in the regional competition at Elon College. Indermaur took second place, missing first place in the regionals by one problem.

Out of a field of sixty-nine finalists, several of whom had perfect scores of 800 on their math SATs, certificates of merit were presented to the top twenty finalists while the top five received plaques

The forty-problem State Mathematics Test covered the secondary range of math including algebra, geometry, trigonometry, and analysis.

Mr. Saunders feels that Indermaur is "one of the finest students in mathematics that one could ever hope to encounter."

Next year the five member

This Grimsley senior anxiously anticipates the graduation ceremonies to be held on June 12 at 8:00 pm in the Greensboro Coliseum. [Miller Photo]

Rizk Wins Award, Claims \$25 Prize

Each year the O'Henry Study Club awards a \$25 prize for the best short story written by a Grimsley senior. This award is unique to Grimsley, and was won this year by Mysoon Rizk.

Mysoon's story, entitled "The Bird," appears in the latest edition of IN FULL FLIGHT, Grimsley's literary magazine.

Congratulations, Mysoon, and keep up the good work!

'Response Poor'

To the Editor:

This letter is written in the aftermath of the last two weeks here at Grimsley. In the last issue of High Life, excellent coverage was given to the Playmasters production of Harvey. Our heartfelt thanks go out to the staff for their support and spirit of this exciting (to us) event.

Our concern, however, is the response to that event. Very few (under 25) students here saw Harvey. Yet over 200, by conservative esti-

mates, saw the Page production of Jesus Christ Superstar. Whole school groups were seen at Superstar, while none saw Harvey. We in Playmasters find that disturbing, distressing and disappointing. The members of Playmasters work hard to produce shows, and support is the only thing asked in return. For drama to continue at Grimsley, we need you -- the students body to help us with your support.

Playmasters

Caring Teachers Make Learning Rewarding

by Joe Morris

It has often been said that hindsight gives twenty-twenty vision. With a retrospective view of our years at Grimsley, we now can focus more distinctly on the elements of our lives at school which have shaped our characters and enhanced our wisdom, as well as those that have wasted our time.

In my three years here, there have been two subjects which have consistently provided knowledge, humor, stimulation, and satisfaction.

French, under the guidance of Mrs. Ann Oakley, has been one of these enlightening courses. Mrs. Oakley's classes have an amiable atmosphere which generate responsibility and a desire to learn. Through discussions which are almost entirely in French, her students are instilled with a thorough knowledge and appreciation of language, culture, and history. And while emphasizing the importance and relevance of her subject,

Mrs. Oakley maintains the rare quality of understanding that students are involved with other studies and activities.

Math with Mr. Larry Saunders has also been of great value. The dedication and concern with which he teaches is reflected in the diligent performance of his students.

Mr. Saunders demands alertness in class; those who persevere are the "cream of the crop" of math students.

I would like to express my thanks to Mrs. Oakley and Mr. Saunders for all that I have learned from them. Such caring teachers make education a rewarding experience.
