

ity once you move out on your own, a big sniblin rag. MINDY: chill out bull dog. GINNY: whoa now tiger. RB, BO, JP: hand cuffs, good luck guys. It started with unconsciousness and a great big shiner. The next day came a phone call which lead into a \$1.50 movie. Weeks after came a hill, hours after came HL. In the middle of the night pouring down rain sitting in our bathing suits while lightning was striking all around us. Months after came Blue's Creek: Elephants shoe was said in both of our minds. Then 3/2/96 started life together. When we're not together, remember to look up. If you truly love someone or something set it free. If it returns it was meant to be! I love you Mary!

I, **J. Peter Schwarz**, the man of sound mind and decent body, could not possibly give credit to all the individual students, faculty, and administrators in less than 200 words who helped to make the past four years as great as they were. All the inside jokes in the world could not express the appreciation for the entire GHS experience. Thank you to everyone out there who made it possible in whatever way, shape, form, or degree... and you know who you are. Good luck and best wishes in the future.
