

Phoenix People's Voices:

Why is it important for Blacks to participate in the 1990 Census?

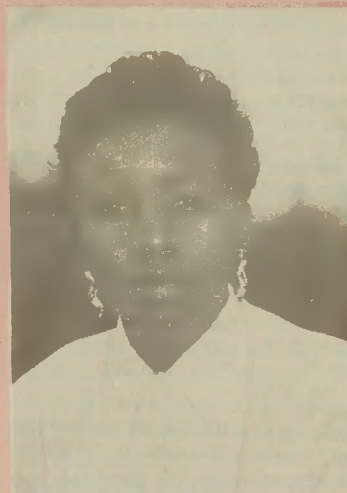

Vanessa Williams

I know it is important to participate in the census because we, as blacks, should make and keep our count known. We know whites will not do it, which they shouldn't, so we as blacks should really participate.

M. King

I think it's important to take part in the census because our race should know what our race count is. But the United States shouldn't know who or what person lives with you, and no more information about your household.

Marianne Woodbury

I think that it is important for Blacks to take part in the census because we need to get an accurate count of our race.

Sadie White

It's very important because I'm black and proud, and we need our count known as black people.
