

WHAT IN THE WORLD IS GOING ON?
Continued from Page 1

global mandate is in many ways clueless and has no global prospective. It is time for a change and the time is now.

Our leadership training school equips leaders in the areas of community development, medical mission education, environmental sciences, language acquisition, literacy and many other areas of development. If you have ever desired to make a powerful impact in the continent of Africa, Asia or Latin America G.L.T.C. is for you

For six months G.L.T.C. will train you in the foundational components of global outreach and development, you will learn how to dig wells, start an orphanages, legal missions, provide alternative power sources and humanitarian crisis and develop feeding programs. Go to our website for more information, www.gltc.org or call 336-917-2630 or 800-718-7002.

There is a whole new world awaiting you. For years, the conventional way of doing missions was from a humanitarian approach for the most part. However, Global Justice Ministries (G.J.M.) and Master's Touch Ministries (M.T.M.) believe in combining legal mission with the humanitarian arm of aid and compassion. We have raised the bar to not only bring immediate aid and relieve but to also challenge the existing laws that prohibit and violate the naturals from their human rights.

Until the laws are challenged and changed and until governments are held into accountability for their violation of human rights, we will continue to see the injustices that oppress the needy worldwide.

Let's stop turning a deaf ear from the need for change and become the change. Let's make a mark in our society and generation. It's time to make news instead of reading the news only.

I've just returned from the Middle East and Africa, and every leader in the Middle East is eager to see how we are positioning ourselves as a Body of believers. The Sudanese Council have asked me, "Doesn't African American Church has a plan for us?"

The very people who first model the march of justice for civil rights must now become the people who lead the way for human rights global-

ly. The freed people must move on to free other people. We are not waiting on God. God is waiting on us.

Prior to leaving for the Middle East, I met with the president of Burundi, Peter Nkurunziza. Burundi suffered genocide just as Rwanda did. My husband and I were invited by the president to come and assist and aid in the rebuilding of Burundi. Peter Nkurunziza is a born again believer. The doors are open like never before for the Body of Christ to bring the necessary change.

We are offering only three local scholarships to the first three candidates that call our office as our way of giving back to the community here in Winston-Salem.

As the CEO and founder, I am also offering three scholarships to any international resident living in the United States that has a desire to be equipped to reach the oppressed and the poor, with a global strategy of development, empowerment and change. It is a new day.
