Students Are To Represent College

Queens Invited to Send Students to N. C. High Schools On Annual College Day

The annual college days are being observed in high schools throughout the state, with the idea of giving the high school seniors an opportunity to talk with representatives from the various colleges. Queens-Chicora College has been invited to send representatives to several of the large high schools in the state. View books, the college catalogue, the *Coronet*, and various other college publications have been sent to the schools, where they are on display in the libraries for the students to examine.

On March 15 May Lebbly Smith went to the Wilmington high school at Wilmington, North Carolina. Betty Manning will represent Queens-Chicora at the Richard Reynolds High School in Winston-Salem on April 4, and at the Greensboro High School on April 5.

Motion Picture Of "Bergerac" Presented Here

"Cyano de Bergerac," the brilliantly hand-colored screen version of Edmond Rostand's famous romance was presented in the college auditorium, Tuesday night, March 19, under the auspices of the French Club. This film production which has met with such a great success in the cities of Boston, New York, and Chicago was thoroughly enjoyed by all who attended it here.

The whole film was entirely painted by hand which is a very unusual feature. This system of handpainting which is done with the aid of a magnifying glass demands that each of the thousands of little squares which go through the projection machine at the rate of nineteen per second must each and everyone be painted with transparent color.

Dr. Abernathy To Be Invited Into Phi Beta Kappa

Dr. Ethel Abernathy who recently received her invitation to become a member of the Alumni Division of the Duke University chapter of Phi Beta Kappa will be initiated on April 10. Dr. Newton Edwards, professor of Education at University of Chicago, and brother of Miss Alma T. Edwards will deliver the initiation address.

Membership in Phi Beta Kappa is not retroactive only, but is extended to former graduates upon a record of distinguished service in the field of education.

Dr. Abernathy's election is based both upon outstanding service in Education and upon extensive research in the fields of Learning and Retention and in the field of Child Development. Her first publication in this field came out in 1925 and attracted wide attention. Her service to Education covers a period of eighteen years, during all of which time, she has been connected with Queens College.

Her work at Queens was begun in the fields of Psychology, Philosophy, and Sociology. In 1920 she began the organization of courses in Education, which marked the introduction of that department in the Queens College curriculum. Dr. Abernathy served as head of the Departments of Psychology and Education from that time until 1931. In that year she was granted a leave of absence for 3 years to complete research study at the University of Chicago, leading to her doctorate.

While she was pursuing her studies in Chicago, Dr. Abernathy served as staff psychologist for the University Laboratory Schools.

Both faculty and student body are proud of Dr. Abernathy's record and of this outstanding recognition of her services. It brings with it increased distinction for Queens College.
