# Miss Rena Harrell Presents Awards

Tuesday morning Miss Rena Harrell, librarian of Queens, announced the awards and cups, trophies and honors that have been won by the various organizations on the campus throughout the year. Once a year one chapel period is designated as awards day.

After a prayer by Dr. Hunter B. Blakely, president, and the singing of the hymn "Greater Queens," Miss Harrell presented the awards.

The Leadership cup and the scholarship cup were both won this Year by Alpha Gamma Delta, national social sorority on the campus.

The marshals will be the chief marshal, Miss Ann Perry, Charlotte; first junior marshal, Shirley Warner, Greenville, N. C.; second junior marshal, Laura Sanford, Hendersonville, N. C.; first sophomore marshal, Laura Eager; second sophomore marshal, Eugenia Shive, Richmond, Va.; first freshman marshal, Hazel Ann Fraser, Atlanta, Ga.; second freshman marshal, Virginia Mae Brosius, Charlotte.

The Sigma Mu award for creative ability in writing was awarded to Miss Betty Barber, for her collection of Fanciful Lyrics and for re- Davis of Hillsboro.

At the regular morning chapel on search to Miss Hazel Ann Frazer, for her "Nylon, A Dream Come True." Miss Ann Perry was given an award for the meritorious editing of the Quill, the college magazine.

Miss Joy Beam of Shelby was

given the Queens College special art prize for her picture, Frozen Foods, which was voted as the best picture in the recent art exhibit. In athletics, Miss Carol Wohlford of Charlotte received the award for

the best all-round athlete, and Alpha Gamma Delta sorority received the competitive basketball cup. Certificates were given to sixty for earning points in athletic ac-

The Alpha Iota cup went to Miss Estelle Darrow.

The winners of the Morrison Temperance Essay contest, of which the title was The Effect of the Cocktail Hour Upon the American Family, were first prize of 25 dollars, Miss Arnette Hathaway Avery of Southern Pines, N. C., second prize of fifteen dollars to Miss Pauline Bell of Charlotte, and third prize of ten dollars, Miss Betty Jo Pleasants, Charlotte, and honorable mention went to Miss Nellie Cheek

# Legends Of How They Came To Be

(As related by Diana, with all typographical errors due to your humble roving reporter).

The other night I was out talking to Diana. She had told me to come by some time when I had some spare hours because there were lots of things that she'd been wanting to divulge. I simply hadn't had time to go before, but on this particular night I had finished study ing rather early so I dropped by to see Di. First of all I had to look for one of her arrows that she THOUGHT went behind South Dorm. Evidently it didn't, though, because after twenty minutes of crashing through the shrubbery I still hadn't found it. I scared a lot of silly little squirrels, though. Finally I came back empty-handed Di was quite disappointed that I hadn't found the arrow but she said that it was all right, it was years old anyway.

She unstrung her bow slowly and waded through the water to the edge of the pool where I sat watching her. "I'm glad you brought the coat along for me tonight," she said with a little shiver. She sat down beside me with a little sigh. "Sometimes I think that I shoot more arrows than Cupid does," she chuckled. "But mine always go I know not where . . . Cupid's almost always hit the spot. He and Pepsi-

Colas don't look much alike, but they sure have a lot in common!" Di giggled, delighted at her own joke. Sometimes she gets corny but she's always cute and I love her dearly. She can be serious too, and she meant what she told me in the next few minutes. She was especially earnest about what she said because just that afternoon her brother Apollo ("He's the prophet in the family," Di muttered proudly) had dropped by to see her and had told her many things: past, present, and future." I just want to talk over a few people you know," she said in confidential tones. "I guess you have been wondering why some people are the way they are-psychology doesn't tell you EVERYTHING! I've been watching all these people come and go for a pretty long time now, and I've had time to do a lot of thinking about them. So a lot of this I already knew and then my father Jupiter-he's SUCH a wise man-and some of my uncles and aunts and of course brother Apollo helped me out. It's really quite fascinating and if you've got time I'd like to tell you a little.

There are legends and legends, but some of my favorites concern people, and how they came to be what they are. You probably know the story of how some of my very dearest friends and relatives came to be, and who made them, and what they're made of, and why. It's really quite fascinating, and I wish that we had time to talk about all that. But

(Continued on page 2)
