Summer School

When you go home for vacation and crawl into your hammock do not lie there with your apple and a book and picture the campus here at Queens as one dead place with only a squirrel or a chipmunk as a sign of life. You may sit up and wish you had remained a few weeks longer when you learn that the laughter of handsome G.I.'s and the smiles of summer at Queens will keep the place lively. Dignified professors will continue to thread through the chatter of friendly groups in the halls as classes change during morning hours.

Through open doors in summertime the classes in Algebra and Trig, Biology, Chemistry and Spanish will give the Science Building its familiar hum. Burwell Hall will resound with phrases of English and History and answers to questions on how to teach.

All play and no work makes Jack a dull boy — to say nothing for what it does for a girl. Maybe you would like to stay with us for the first half of your summer.
