

SPORTS

The program of Athletic activities has changed this year. We, who did the changing, hope that the set-up will be advantageous for most of the students. There will be only two days of planned recreational activities—one program being held on Tuesday at four-thirty and the other on Thursday at six-thirty. For the first time in a number of years, this set-up has eliminated many conflicting activities, such as Choral Club and S.C.A.

In the afternoon, there will be a number of sports offered to enable a larger majority of student participation. Miss Mitchell will have charge of archery down at the May Day Dell. Anyone who feels like a little "Robin Hood" or William Tell may come on down. Miss Hawley will run back and forth from the tennis court to the volleyball court, stimulating interest and giving instruction. Pete Thomas will have charge of the "try your luck at golf" activities. Phyl Johnson will supervise the activities in the Physical Education room, which will include ping pong, shuffle board, and badminton.

Those of you who are worried about the basketball season, a different plan will be set up in which Monday, Wednesday and Friday afternoons will be set aside as time for practice.

The purpose of the Thursday night recreational program is to relax and to mingle with "these good ole Queens girls." There will be a variety of entertainments and from what I gathered from the A.A. meeting they have some good ideas in mind. Goldie Barron suggested that the Council plan a "sitting up" party." As she reinforced the statement, "it's recreation, isn't it?", we agreed with her (so as not to hurt her feelings), but thought the S.B. had rather do something a little more active.

The first of the Thursday night recreational programs was held October 2 in the Physical Ed. room. Many of the students had come down out of curiosity to see what the Athletic Association had in store! Miss Hawley led several folk dances and she was ably assisted by Rachel Stevens at the piano. Much fun was had by all for about a half on hour, after which time everyone retired to their rooms to study????

Described above is just one in a series of events which will be held in the Phys. Ed. room, and so if you missed it don't feel badly, but come to the next one.

On October 13 the Athletic Council submitted to the student body several proposed amendments to the Constitution of the Athletic Association. These recommendations were the results of a special council meeting which met for the purpose of discussing the present Constitution. The Council believes that these changes will benefit the student body. The following are the proposed amendments.

Constitution as it reads now

Art I "... name shall be Athletic Association of Queens College."

Proposed Changes

Art I "... name shall be Recreational Association."

Art. V. "To give the President authority to appoint standing committees . . ."

Minor changes of the By-Laws. Awards and points were being discussed when the Blues went to press.
