GRADE ELEVEN

Brenda Anderson, Mable Hicks, Rendall Howell, Decosta Lindsey, Rosalyn Jordan, James Long.

GRADE TWELVE

James Clark, Samuel Graham, Cornell Hamme, Yvonne Hester, Joy Jeffers, James Morgan, Delores Norman, Braxton Peace, Sandra Scott, Mary Jo Young.

Hi-Y Club

The Hi-Y Club under the directions of Ralph Hunt and C. C. Powell has been organized to bring better cooperation among young men. The Hi-Y Club has three purposes; 1.—to develop clean living, 2.—clean sportsmanship, 3.—clean scholarship and clean religion.

Plans are being made to have a banquet in the near future. We are scheduled to present an assembly program in February during Brotherhood Week.

There are a total of twenty-six members in this organization.

Because of being inactive for two years the Hi-Y had only three old members.

We feel that this club is one of the greatest nation-wide organizations that any boy could belong to. In view of this, we encourage every boy who can qualify to join.

Club officers are: George Wright, Jr., president; James Morgan, vice president; Braxton Peace, secretary; Ira Graham, treasurer; Cornell Hamme, reporter; Luke Witherspoon, parliamentarian.

Music Department Off To A Good Start

The music department of Mary Potter School is off to a grand start. Numerous students and teachers are busy each day learning new music.

The Mixed Chorus under the directions of Miss Gloria Jones, and the H. S. Davis Boys Ensemble, directed by C. C. Powell, are planning an outstanding Christmas program.

The H. S. Davis Ensemble participated in the annual Christmas Parade sponsored by the Oxford Merchants Associations and sang various carols.

Glee Club

The student body welcomes Miss Gloria Jones to our school. Miss Jones is director of the Glee Club and also teaches English to ninth graders.

We have many active members in the Glee Club and we welcome all newcomers.

With the cooperation of everyone we hope to present successful programs.

Our officers are: president, Mable Hicks; vice president, Rachel McGimpsey; secretary, Maggie Thomas; reporter, Erma Thomas.

8-3 Elects Officers

The girls and boys of the eighth grade, section three, met in September and elected class officers for the year 1957-58. The class officers are as follows: president, Barbara McGhee; secretary, Venian Cotten; treasurer, Lee Morgan; reporters, Barbara McGhee, Violet Downey.

We are working on an interesting unit in history. The title of the unit is, *Explore North Carolina Through Books.*

Too Little Time For 10-2

Our term is moving away so rapidly there just won't be enough time for us to do the many things that we would like to do. We will however, hope to complete as many of our plans as possible.

Shortly after school opened, the annual homecoming queen contest got underway. Through the cooperation of every member of our class, we ranked third within the high school department and fourth among all classrooms.

Miss Helen Smith, a senior at North Carolina College, is working with us. Miss Smith is doing her practice teaching here with our teacher, Miss L. Mae Jones, as her supervisor. We are glad to have Miss Smith and we are cooperating with her in every way that we can.

Only one of our classmates has maintained an average of "B." What's the problem? — We will just have to put into practice some of those suggestions that have been given to us by our teachers.

You will be hearing about and seeing more of our planned acti-

Scholarship High In 8-1

The thirty members of eight-one elected the following persons to govern the class for the school year 1957-58: Parthenia Days, president; Flora Jiggetts, vice president; Eva Owen, secretary, Bernice Crews, treasurer; and Barbara Walker and Doris McGhee, reporters.

The class is proud of the fine building and the fine furnishings provided for the classrooms. Their main objective is to make sure that all things remain as they are at present.

Seven of the male members of the class are members of the "Raiders" basketball squad. Ten of the female members of the class are striving to play on the Raiderettes basketball team. We wish to commend them on the progress they are making toward their goal.

Two pupils are members of the Student Council. They are Cheryl Henderson and Parthenia Daye. Cleveland Duncan and Lizzie Peace are members of the Junior Patrol group. Lizzie holds the position as secretary of the Patrol Force.

The class has made a god showing academically. Among the numerous name released to the city press as honor roll pupils for the first grading period were the names of Samuel Bass, Daniel Holloway, Thomas Jones, Harold Rogers, Edward Tapon, Patricia Brown, Bernice Crews, Parthenia Daye, Veronica Dolson, Cheryl Henderson, Flora Jiggetts, Doris McGhee, Eva Owens, Lizzie Peace, Shirley Speed, Barbara Walker, and Cora Wilson.

We have now been drained of all our secrets and joys so until the next period rolls around we wish to sigh off.

Officers Named In 7-2

The teachers and students of 7-2 are enjoying this school term so far. Our enrollment consists of twenty-three pupils.

We have been studying many interesting subjects.

Our class has elected the following officers: Robert Webb, president; Joseph Peace, vice president; Shirley Blackwell, secretary; Janie Overby, assistant secretary; David Puryear, treasurer; Bettie J. Cooper, and Demeterias Daniel, reporters.

8-1 Plans Yule Fete

The 8 division plans a chapel program for the 20th of December, at that time the entire class will take part. The theme has not been selected but it is quite possible that it will relate to Christmas.

The class also plans to work toward a class party prior to school closing for the Yule holiday.

We wish to express to all our classmates, teachers, and custodian have the merriest of Christmas and the happiest New Year of all.

6-Three Elects Officers

We started the school term of 1957-58 with a "bang." The boys and girls were full of energy and ready to work. We are enjoying many activities of interest. Our new building is nice and we plan to keep it this way. Helen Hicks and Charles Williams are our representatives to the Student Council.

Toney Chandler and Franklin Hawkins are members of the Safety Patrol.

During the absence of our teacher, Mrs. S. R. Wilson, who was in Washington, D. C. because of illness, Mrs. Sarah Taylor was our teacher.

Our class officers are: Franklin Hawkins, president; William Green, vice president; Malinda Mack, secretary; Catherine McCaden, assistant secretary; Chorlene Henderson, treasurer; and Elizabeth Terry, reporter.

SCIENCE IN YOUR LIFE

Perfect Diet

The average adult in the United States today consumes enough food to prevent serious nutritional deficiency diseases. However, this does not mean that he is obtaining enough of the right kind of food to keep him in the "pink of health."

These are the findings of Dr. William H. Sebrell, Jr., of the U.S. Public Health Service. This scientist points out that the average diet may not provide children with the proper food for best growth, for developing resistance to disease, for preventing chronic disease, for overcoming unusual stress associated with infection or serious illness or for sufficient extra energy to keep pace with special childhood drives.

Moreover, a survey of 60,000 children in 38 states indicates that diets become poorer as the children grow older. Mothers-to-be, industrial workers and elderly people also have certain nutritional needs that are not met with the average diet.

To meet these nutritional needs, scientists have developed multi-vitamin and mineral products that are intended to supplement the diet. Vitamin products—such as Viterra Tastitabs, candy-flavored soluble tablets designed for use by the entire family — help the housewife provide her family with the vitamin and mineral essentials of a "perfect diet."

Without scientific instruments which can accurately measure the vitamin content of the foods she buys, the housewife cannot determine if the food on her dinner table is providing her family with the essential health-giving vitamins. But science has come to her aid in a much easier way — by making available the vitamin products to supplement her family's diet.
